Concealed thermostats

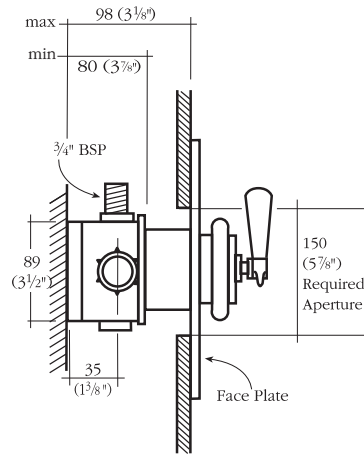

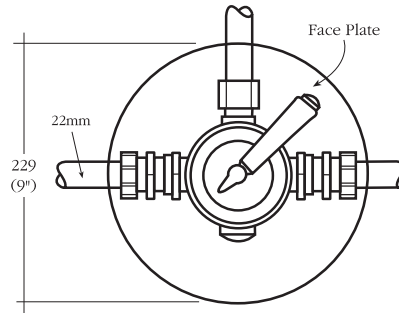

IMPORTANT NOTE REGARDING INSTALLATION

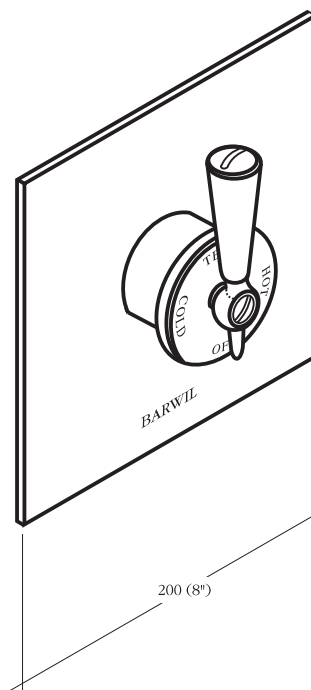

It is essential that thermostatic valves are installed giving full access for servicing. Where a suitable face plate is provided for finishing it should be affixed to the wall with a thin bead of silicone sealant. Under no circumstances should valves be plastered in, tiled in or otherwise entombed. If practical, rear access should be provided. Failure to follow these instructions could nullify any warranty, and could result in damage to tiled or decorative finishes. It is **essential** that pipe lines are flushed **before** fitting.

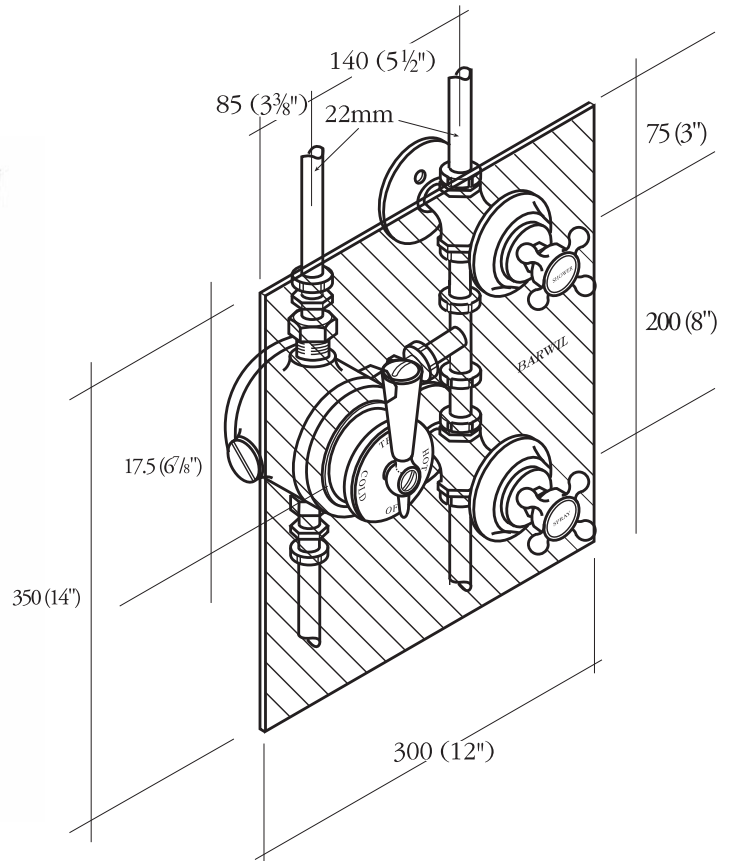

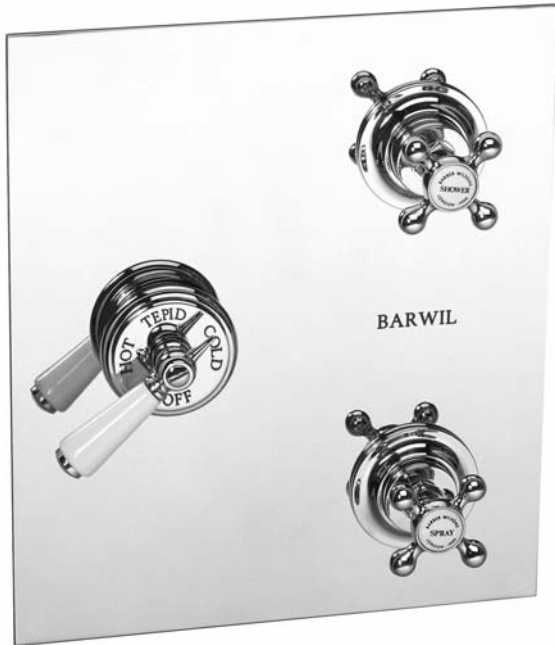

PS53C
Recessed thermostatic shower mixer on 229mm (9") round wall plate.

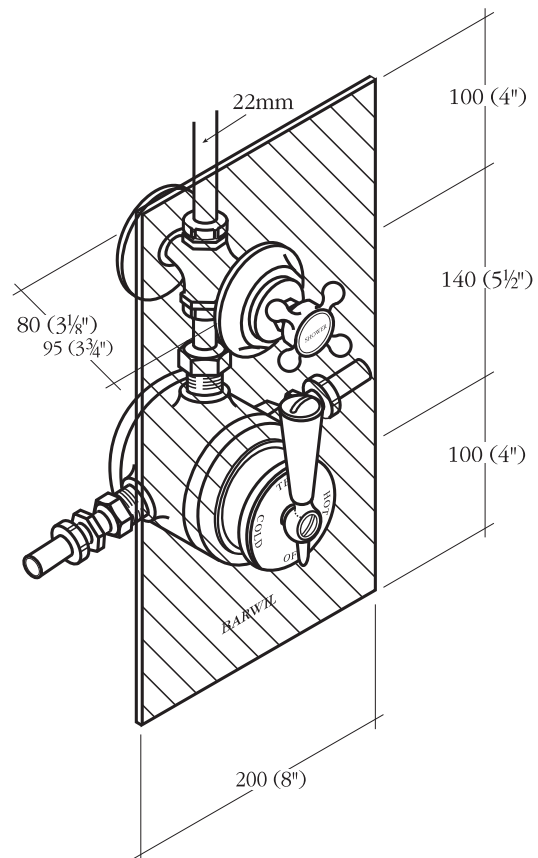

PS53CSQ
Recessed thermostatic shower mixer on 200mm (8") square wall plate.

Please consult current price list for variations.

PERFORMANCE OF THERMOSTATIC VALVES

Flow Rates at Equal Pressure Drops.
(Open outlet only. Does not allow for losses through pipes & fittings).

Pressure drop (bar)	0.1	0.5	1.0	1.5	2.0	3.0	4.0	5.0	
Flow rate (litres/min)		14	30	48	55	61	76	90	102

Thermostatic valves to match Barwil tap styles

1890s (GA)

Regent (R)

Barber Wilsons thermostatic valves match the following Barwil styles:

- The **1890s (GA)** range have the original exposed top works.
- The **Regent (R)** range with 'easy-clean' shrouded head parts.
