Technologies

Changes to a different spray type or shower in moments.

Keeps the flow to a minimum to save water and energy without any performance loss. For lasting pleasure.

Combines water with a generous amount of air. For a soft, splash-free water jet and rich, full shower drops.

Remove limescale deposits simply by rubbing the flexible silicone jets.

Distributes the water over a large shower face, so your whole body is completely enveloped in well-being drops.

Defines the individually utilisable area between basin and mixer, for all possible applications.

When turning the mixer on, only cold water flows in the basic setting. Hot water only comes through when you need it.

Spray modes

Perfect for rinsing shampoo out of your hair.

Strong invigorating spray.

Gentle rainfall with air-enriched drops.

Soft relaxing shower rain.

Concentrated beneficial massage spray.

Dynamic, revitalising massage spray.

A combination of soft shower rain and dynamic spray.

Powerful flood jet for generous coverage.

Generous flow of soft sprays.

Finishes

The last 3 digits of the product number defines the finish.

Example: **28500, -000** = Chrome

000 Chrome | 400 White/Chrome | 800 Stainless Steel Optic

Enjoy Select.

There's now a little button in the bathroom that provides a tremendous amount of pleasure.

It is a well-known fact that here at Hansgrohe, we never stop reinventing water pleasure. Once again it has clicked with the new Select technology! A simple touch of this button is all it takes for anyone to be able to enjoy their particular shower pleasure. The discreet Select button on showers and thermostats combines many of the features that our products are known for: the best design, smart functions and excellent user-friendliness. Of course, we also include these characteristics in our

bathroom and mixers for you. This turns our ideas for water into an experience in your home. In this brochure, you will discover award-winning design coupled with innovative technology and an added helping of pleasure – so happy reading!

Yours, Richard Grohe

Experience the catalogue interactively on your iPad: <http://itunes.com/app/hansgrohecatalog>

Set to nothing but pleasure:

Showers and thermostats.

As individual as you are: Our range of showers and sprays.

Choose your perfect shower configuration from our range of showers.

Soft summer rain, a powerful waterfall or a revitalising shower spray? Whatever your idea of the perfect shower

is, through our showering options you will be able to turn your dream into genuine shower pleasure. Design your individual

shower - with the shower configuration that suits you.

Hand shower and shower set

The basic solution - offers the same full shower pleasure, and is easy to mount on the wall.

Overhead shower

For relaxing or rejuvenating - because every day deserves a different shower. Concealed installation, integrated into the wall.

Showerpipe

Exposed installation - complete shower pleasure with minimum effort. Perfect for upgrading during renovation.

Showerpanel®

Combines overhead, hand and side showers in a single system. The focal point in the bathroom in the exposed wall-mounted version.

Shower family

Overhead, hand and side showers are controlled by the RainBrain display or concealed thermostats. From waterfall to all-round pleasure.

Freedom: Select your perfect hand shower and shower set.

ShowerSelect®: easy shower control at the touch of a button.

Pleasure to the power of three thanks to Showerpipe.

Overhead showers are the nicest way to stand in the rain.

Showerpanel®: looks good – and feels it, too.

Select your shower pleasure.

The easiest decision you'll ever make in the bathroom: Select.

We don't just want our ideas to revolutionise the way we use water; we also want to set new standards in ease of use and control. There is one thing Hansgrohe developments should be above all else: they should be fun. This claim goes with every single deliberation we make, and every line drawn by our

designers. So our most recent milestone comes, without extensive user instructions, but as an elegant button that is simple and intuitive - touch, see and experience the difference. It will change your shower experience because you can change spray types or select different outlets simply at the touch of a button. As you

would expect, the Select products also include the other Hansgrohe innovations with which we have made showering more sustainable, more varied and simply much nicer in recent years. It is not possible to enjoy water more.

www.hansgrohe-int.com/select

Pleasure is intuitive.

Hansgrohe redefined large-scale showering pleasure with Raindance. Now the question is: what will make the best showers even better? It's clear - even easier control! Control at the touch of a button provides maximum comfort for the user - really easy, and completely intuitive.

Pleasure is simple.

Why a button? Because it invites us to try it. It is fun to control something using a button and experience direct action/reaction. And because showering no longer has to be based around a disc, Select has also revolutionised shower design.

Pleasure is everywhere.

We never want to go back to before developments that make daily life easier. And thermostats with buttons to touch instead of parts to turn gain as much in user comfort as hand and overhead showers. Which is why everything in the shower now promises that you can select your shower pleasure.

Showering re-thought.

Passion for water, innovations for the bathroom.

For 112 years, water has been the element that revives us, drives us, and to which we are 100% committed, body and soul. This passion flows into perfect design and intelligent comfort – and our commitment to using our natural resources responsibly. Which is why we are constantly developing new technologies and services to help you reduce your water consumption and increase the lifetime of your showers – as well as your showering pleasure.

EcoSmart.

Back in 1987 – long before saving water became such a big issue – Hansgrohe developed a hand shower, the Mistral Eco that used only half the amount of water and saved previous energy. Today, EcoSmart showers consume only nine or six litres per minute, and save up to 60% water and energy.

QuickClean.

All our showers have flexible silicone jets. Any deposits are quickly removed simply by rubbing a finger over them. Well looked-after limescale-free products not only look much nicer, but they also work better and last longer.

AirPower.

Generous amounts of air are drawn in through the spray face. This quite literally stirs up the in-flowing water. The resulting air-enriched drops are fuller, lighter and softer. This not only feels good, but it also means that you are making the most efficient and splash-free use of your precious water.

XXL Performance.

By intelligently distributing the water over a large area, the whole body is enveloped in a feel-good shower rain. For fabulous water pleasure.

Find your own shape of perfection.

Just for you: Hansgrohe's shower ranges.

Everyone has a different idea of what constitutes the perfect shower. This is why we have not only a variety of spray types, but have also developed different

design lines and price groups for our showers. Whichever of these beautifully shaped solutions you choose, every item is now also available as part of a

shower set or as an overhead shower. You choose.

Raindance® Select. Simply elegant.

Hansgrohe redefined large-scale showering pleasure with Raindance. It appeals for its size and functionality just as much as for its design – for which the Raindance Select E 120 received the iF design award. Thanks to the Select technology, it is also wonderfully easy to use – simply at the touch of a button.

Hand shower

Croma® 100. Simply classic.

With its straight lines and balanced proportions, the Croma 100 is basically what a very good shower is expected to be. This also applies to its inner workings: whether Vario, Multi or 1jet, the Croma 100 always provides a refreshing shower experience.

Crometta® 85. Simply practical.

Every Crometta 85 offers Hansgrohe technology in a compact form. This, our handiest shower, contains concentrated shower pleasure. Thanks to its design style, the Crometta 85 is a product that will go in any bathroom.

Overhead shower

Showerpipe

Raindance® Select: Innovation at your fingertips.

Experience individual comfort in form and function.

Beauty is not only in the eye of the beholder, it is a feeling of the user. And which particular water form feels best is a matter of personal preference. That is why the Select technology now has three spray types on the hand shower to select your shower pleasure. They are available round or square, in pure chrome or

chrome with a white spray face - not only to please the finger that touches the button, but also to delight the eye. Even the environment can be happy: thanks to the smart flow limiter, the EcoSmart version reduces water consumption by up to 40%. The showers shown here are all available individually or as a shower set

in combination with a shower bar. With the new ShowerTablet Select thermostat, you can make the shower even easier to operate at the touch of a button - and enjoy the benefits of a beautifully shaped shelf under the shower.

www.hansgrohe-int.com/select

Raindance® Select E 120 3jet Hand shower

Switches over to a different spray type intuitively and in moments, providing pleasure at the touch of a button.

From Showerlab to practical use: Water in your favourite form.

Studies in Hansgrohe's Showerlab have identified that there are three different shower types.

Pleasure showering.

Pleasure showerers like to take their time in the bathroom, and seek relaxation. They like to wash the day's stresses away, drop by drop. When the water runs down them like rain, nothing and no one can disturb them. They are not only interested in body care, but they also want their soul to be pampered by the water. The lavish, soft **RainAir** spray is perfect for them.

Efficient showering.

When an efficient showerer steps under the shower, they want to be refreshed when they come out. Sometimes it only takes them a few minutes to achieve the desired results. The shower should have an instant effect. Shampoo, for instance, must rinse out quickly and thoroughly, or they become impatient. A clear case for the strong **Rain** spray.

Focus showering.

A proper shower must be really intense for a focus showerer, and go deep down, showering away deep-rooted tension, or perhaps the after-effects of a demanding last work-out. They like to feel completely 'loose' when they leave the shower, all their cares and stresses washed away, ready for the evening or their next bout of sport. The **Whirl** spray gives them a targeted massage.

Beauty has two faces.

The Raindance Select hand and overhead showers in the following segment are available in chrome or chrome with a white spray face.

The last 3 digits of the product number denote the finish. Example: **28500, -000** = Chrome
000 Chrome | 400 White/Chrome

Chrome.

White/Chrome.

Raindance® Select: The loveliest rain in the world.

Overhead showers for the highest standards.

Now it's also possible to select the spray type of the Hansgrohe overhead showers at the touch of a button. One further spray type is being added to the selection options: the RainStream spray showers you with twelve sprays of lavish rain, wide and sparkling, to wash your cares away. However, Rain and RainAir also offer relaxation as full sprays over

the entire spray face. The appearance of these overhead showers is just as varied as the showering experience. They are available in the classic round version or in a contemporary rectangular form; in pure chrome or chrome with a white spray face. They have also been given an elegant, subtle chrome ring on the outside, a higher, more exclusive rim and

an attractive wave structure. The spray face is removable and therefore easy to clean, which means it will stay looking good and functioning perfectly for a long time to come.

www.hansgrohe-int.com/select

Raindance® Select E 300 3jet Overhead shower

Switches over to a different spray type intuitively and in moments, and provides pleasure at the touch of a button.

Gentle shower rain to enjoy with air-enriched drops from large jets.

Strong shower rain from small jets - perfect for rinsing shampoo out of the hair.

Lavish flow from 12 wide jets - for effective relaxation.

Spray modes: Beauty is in the eye of the beholder.

The overhead showers also have the right shower spray for any user.

RainAir.

Every single drop from the RainAir spray bursts forth from a large, wide jet, absorbing lots of air at the same time. This results in a soft, voluminous shower rain.

Rain.

The new Rain spray focuses the water on its strongest characteristics. Released from small, narrow jets, it refreshes powerfully and quickly, and is ideal for rinsing out shampoo.

RainStream.

Gentle and yet strong, 12 lavish, sparkling sprays pour forth from the back area of the overhead shower. These wide individual jets simply make the burdens of the day disappear as soon as they touch the head and shoulders.

ShowerTablet® Select: simply brilliant.

Everything on the thermostat now works at the touch of a button.

The Select technology now makes it even easier to choose your favourite spray type on the thermostat. The hand shower switches on and off at the touch

of a button, and the ShowerTablet Select 300 makes everything easy right from the beginning. It fits on the water connections from the wall - so it's perfect when

renovating. What's more because it is purely mechanical, it is also extremely durable - for long-lasting pleasure.

Intuitive.

The Select button is entirely intuitive and easy to operate from the front. You just switch the water on and off.

Practical.

There is plenty of room on the level glass surface for shower utensils, which almost eliminates the need for a shower shelf.

Pinpoint precision.

The desired temperature can be set precisely on the large, user-friendly turning control that is located on the front.

ShowerSelect®: The new way to control pleasure.

Concealed thermostats for a shower experience that gets under your skin.

The ShowerSelect finish sets completely redefine shower pleasure. They are so intuitive to use that you understand them instantly. Whats more because all the components are

mechanical, they are reliable, durable and long-lasting. They are easy to fit to the iBox universal basic set and - of course - just as easy to replace. Control is perfectly straightforward thanks to

the flush integrated Select buttons: the shower is switched on and off. Select your shower pleasure.

Enjoy control.

Select your shower pleasure effortlessly.

Everything is simply perfect. The new ShowerSelect finish sets not only fit optimally on the iBox universal basic set, but the clean lines and square shape blends beautifully with the tiles in the bathroom. The integrated Select buttons

are positioned as comfortably as the ergonomic handle feels in your hand. What you don't instantly see is the comfort that this added simplicity contributes to your life in daily use. Incidentally, any Hansgrohe shower can be combined with

these new finish sets. Your local retailer will be pleased to help you with any questions you may have concerning the installation.

RainBrain®.

This makes showering an interactive experience.

With the RainBrain, you control your shower by touchscreen. From changing the spray types or setting the temperature in increments of 0.5° to controlling your favourite music via

Bluetooth, RainBrain makes your shower smarter and showering your perfect experience. A simple touch of the control panel is all it takes to change from a feel-good shower, for instance, to an

energizing all-over massage. Up to five people can set and save their favourite configurations. You can also continue to control your shower manually. But the choice is yours. That's pure shower luxury.

Concealed thermostat with valves – for 4 functions.

Simply use the handle on the thermostat to enter the desired temperature, and use the valves to control up to four different spray types.

Water at its most perfect:

Basin mixers.

Something to suit every customer.

Find your ComfortZone.

The height of a basin mixer determines the level of freedom in the daily use of water. Whether more freedom of movement when washing your hands or simply extra space between the mixer and basin, one thing is sure: the

higher the mixer, the greater the flexibility of how you use water on a daily basis. We call this individually usable space between the mixer and the ceramic ComfortZone. For more space. For every day. And for maximum comfort. Use the

ComfortZone configurator to find your dream combination of mixer and wash basin.

For lasting pleasure

Innovative technologies by Hansgrohe.

EcoSmart.

In 1987 - long before saving water became a public topic - Hansgrohe developed EcoSmart technology. At the time, it helped to reduce water and energy consumption in daily bathing routines by up to half. We have consistently developed this technology further since then, and have now reduced the consumption of our basin mixers to just 5 litres per minute as standard.

CoolStart.

CoolStart is the latest step on the way to maximum sustainability: as the mixer is turned on, cold water flows when it is in the basic setting. You do not consume hot water or the energy required for it until you actively turn it to the left. You will find this function as a product variant on our basin mixers.

AirPower.

Your AirPower mixer combines the flowing water with air. The air-enriched spray becomes softer and more voluminous which not only feels good but also means that you are making the most efficient and splash-free use of your precious water.

QuickClean.

The aerators of our mixers all have flexible silicone jets. Gently rubbing a finger over them removes limescale deposits in seconds. The mixers stay looking lovely for longer - it increases the life of your mixer.

To us, perfect water pleasure also means perfectly formed.

Award-winning design by Hansgrohe.

To us, design is not a matter of taste; it is an attitude – even a passion. Which is why we are still delighted to receive international recognition for our design achievements: With the Hansgrohe and Axor brands, Hansgrohe SE is in eleventh place in the iF ranking 2012, which makes

it the no. 1 in the sanitary industry. Over 350 design awards make us one of the highest recognised companies in the sanitary market. Design is never an end in itself, but is always the expression of equality between form and function. In the search for the most intelligent

solutions, we create showers and mixers of an exceptional quality that will provide lasting pleasure.

Focus Open 2013
Silver

reddot design award

DESIGN PLUS

powered by: **ISH**

GOLD

Award-winning design by Hansgrohe – over 350 prizes won. Here is a small selection of our award winners.

The Raindance® Select E 120 hand shower delighted at the touch of a button in 2013.

The PuraVida® mixers made juries' eyes shine between 2009 and 2011.

The Focus® 240 single-lever basin mixer received the highest award at the 2012 iF Awards.

The Metris® product family appealed right down the line in 2012.

The Raindance® Connect 240 Showerpipe won the whole range of awards between 2007 and 2010.

Awards rained on the Raindance® Rainfall® 240 between 2007 and 2009.

Everything about the design of the ShowerSelect® was simply perfect in 2013.

PuraVida®.

Pure. Clear. Sensuous.

The bathroom is not about tomorrow's trends, but about your own trend. For those who appreciate subtle individuality, they will love PuraVida, because the rounded lines and organic forms radiate a creative self-confidence. The surfaces white and chrome blend together seamlessly in the DualFinish process. PuraVida mixers are available in various heights - for the individual space that we call ComfortZone.

Metris® Classic and Talis® Classic.

Timeless. Lively. Harmonious.

Some things manage to translate the classic understanding of beauty into the here and now. This kind of design combines traditional values such as elegance, warmth and harmony with

modern elements. Balanced shapes emphasise a lasting awareness of what is good. In order to perfect this comfortable feeling, our Metris Classic and Talis Classic mixers also give you the choice of

two heights. Decide for yourself just how much space you need in everyday life to really feel good.

You will find the matching bathroom accessories at www.hansgrohe-int.com

Masters of good taste:

Kitchen mixers.

Swivel the spout by 110/150° for absolute freedom in the kitchen.

Turn the mixer on and off. The handle is rounded at the top for better control of the temperature and water quantity for all age groups.

The basic shape of the mixer blends harmoniously with the sink.

Metris[®].

Practical enjoyment.

Cooking has long been more than just something that happens in daily life. More and more sophisticated kitchen tools bear witness to this new trend of culinary enthusiasts. But what would all this be without the most important element in the

kitchen - water? That's right - nothing. Hansgrohe's developers used their understanding of good taste to design and develop the perfect kitchen mixers. For example Metris with the pull-out spray and particularly ergonomic handle makes

kitchen tasks a joy. PuraVida, Talis and Focus follow the same recipe: the best design, intelligent functions and sensuous ergonomics.

MagFit - the magnetic holder for easy attachment of the shower.

The normal spray changes over to shower spray at the touch of a button. This means the water always flows just as the user desires.

Pull out the shower for optimum flexibility.

ComfortZone

Lots of space for ease of use.

At home all over the world.

Hansgrohe references.

All over the world, building clients and investors work with architects and planners to complete spectacular and refined projects. There is always a demand for smart, beautifully shaped

solutions for the use of the essential element, water. The mixers, showers, and bathroom collections from the Black Forest add an extra touch of design and comfort to even the best addresses: de

luxe hotel and public buildings, private homes and royal palaces, exclusive sports clubs, cruise ships and luxury yachts.

Experience Hansgrohe products interactively.

Get the future on-screen.

With such a wide range of Hansgrohe products, you will be able to experience water just as you wish to. There are lots of online applications that you can use to obtain as much information as you need. This brings the Hansgrohe innovations home to you – or to wherever you would like to experience them.

<http://itunes.com/app/hansgrohecatalog>

Mobile at its best.

The Hansgrohe iPad catalogue lets trees breathe, and the user can blow as hard as he likes – to get an idea of how much fun an air-enriched shower spray can be. The app presents Hansgrohe's offering in an entirely new, interactive and above all entertaining way. Furthermore if you find a shower you like, you can check to see whether it will fit in your home. A touch of the camera function is all it takes for the real background to fade in with your favourite product in your own home. And thanks to the integrated search, it won't take long to find your nearest Hansgrohe retail showroom.

Interactive features including:

- videos on technology
- photo function to visualise what the product will look like in your bathroom
- list of your Hansgrohe favourites
- share with friends
- dealer search

The quickest installation in the world.

As your bathroom can't come to Hansgrohe, Hansgrohe can simply come to you: the Hansgrohe@home app is the easiest way for anyone who would like to see what that new mixer or shower solution would look like in their own home. Just take a photo of your current bathroom situation, use your finger to highlight the existing mixer or shower and replace it with your favourite Hansgrohe product. You will see the results on-screen. The integrated dealer search will instantly show you where your nearest dealer is. The app for iPhone, iPad and android smartphones is available at

www.hansgrohe-int.com/app

or directly at
