OF  
SPACE

# A BEAUTIFUL USE OF SPACE

At Ideal Standard, we believe bathrooms should be living places not just functional spaces. For us, they're far more than just places to brush your teeth. They should be places to relax, to make yourself beautiful, to refresh and re-energise.

So, for the past 100 years we have been designing products to help you create your ideal bathroom.

Whether that is a place to escape, a boudoir, a playroom or a sanctuary, it is always a beautiful use of space.

# CONFIDENCE INSPIRED BY DESIGN EXCELLENCE

## AWARD-WINNING DESIGN

Design is at the heart of everything we do. We know that creating your bathroom is as much an aesthetically driven exercise as it is a practical one. As Europe's leading contemporary bathroom brand, we are able to attract the talents of some of the world's best designers in the field. This means our products are on the foremost edge of design thinking, for both functionality and style. Our current ranges feature signature pieces by our award-winning design partners – Dick Powell and Artefakt.

## PERFORMING BEAUTIFULLY

Our products are high-performance tools. We know that you expect consistent efficiency and impressive capability. We work hard to develop products that give you ever-greater power, safety, ease of use and economy. Over the years, we've come up with all kinds of innovations to meet our customers' changing needs. In fact, several of the great engineering advances in bathroom technology began life on one of our drawing boards.

## MANUFACTURING EXCELLENCE

Manufacturing excellence is our cornerstone. We know that you need robust, high-quality products that can withstand the day-to-day rigours of home life. Because of this, we keep our manufacturing operations within Europe and the Middle East, we use only the highest quality materials and we subject each and every one of our products to extensive life testing. The result is that we continually exceed all British and European standards, and everything we make comes with a comprehensive guarantee.

# ICONS OF DESIGN

Dick Powell, founder of award-winning product design agency Seymourpowell, has partnered the Ideal Standard team and pushed the boundaries of bathroom design to create our new, luxury range of ceramics, baths and furniture, named Dea – a real meeting of minds.

Ideal Standard has long been a champion of true functionality in the bathroom, demonstrated by a history of collaboration with celebrated designers such as Artefakt and Robin Levien, as well as our in-depth research into bathroom usage. This approach syncs perfectly with Seymourpowell's own philosophy that design is about making things better: better for people, better for business and better for the world.

And this how Dea came into being. Inspired by the name – meaning 'goddess' in Italian – Dea is Powell's response to the evolution of pure minimalism in design, and the range will appeal to anyone who wants a soft, comfortable bathroom, in which beauty, harmony and a touch of femininity combine in a contemporary expression of style.

The signature look that unites each one of Dea's elements is a geometric motif derived from a gently softened trapezoid form. You can see it everywhere in the range, making Dea stand out as fresh and different. Yes, it's a luxury range that pushes the technical envelope, but thanks to the ingenuity of Ideal Standard's engineers, it's an accessible luxury.

Discover the stunning results of our winning creative partnership with German design masters, Artefakt.

Founded in 1989 by Thomas Fiegl and Achim Pohl, Artefakt's designs are simple and often understated, yet they have a natural sensuality that makes them highly desirable and a delight to use. This collection includes the contemporary elegance of Artefakt's Softmood, Attitude and Moments ranges.

Dick Powell,  
Founder of Seymourpowell

Achim Pohl and Thomas Fiegl,  
Founders of ARTEFAKT

“DEA REPRESENTS THE ACHIEVEMENT OF IDEAL STANDARD'S ASPIRATION FOR A TOTAL BATHROOM, DELIVERING A TOTAL BATHROOM SOLUTION, WITH EACH ELEMENT WORKING IN HARMONY WITH THE NEXT.”

# FROM CONCEPT TO CUSTOMER

It's our golden rule that a critical eye stays focused on every detail of every Ideal Standard product; from the initial idea for a range, through design development and prototyping, to manufacturing and finishing. With no weak point in the chain, quality can never be compromised, meaning you're assured a product that consistently serves and delights.

## PRIDE IN OUR PROCESS

Each member of the Ideal Standard team takes great pride in producing our robust, high-performing range of products. Collective and individual knowledge and experience, along with skill in hand and eye, are the key factors in our precise manufacturing processes and rigorous testing regimes. It's a diligence that never relents; not until every shipment has arrived safely.

## OUR PROMISE OF QUALITY

It's this care and start-to-finish control that gives us complete confidence in the quality and reliability of Ideal Standard design and manufacture. It enables us to guarantee many of our products for a lifetime – the ultimate in peace of mind. For full details of the terms and conditions of our guarantee please go to [www.ideal-standard.co.uk/guarantee](http://www.ideal-standard.co.uk/guarantee)

# THE COLLECTIONS

# REAL BEAUTY IDEAL LUXURY

The visionary behind Dea is award-winning designer Dick Powell. His objective was to create an 'emotionally satisfying' environment, and Ideal Standard's knowledge, skills and experience have turned his vision of future comfort into a beautiful reality. From materials to technology, sophisticated ceramics to clever storage, Dea's forward-looking, sensuous design delivers the ideal combination of premium quality and aesthetics, total comfort and exceptional functionality.

# ELEGANCE AND STYLE

Finishes can be the making of your bathroom. Dea ceramics are available in either gloss white for a glistening shine or matt white for a muted sheen.

High performance is an intrinsic aspect of every piece. Discover integrated ambient lighting, a Bluetooth sound system built into mirrors and ingenious storage options to organise your basin area.

Durable surfaces, a choice of sizes and a range of attractive contemporary finishes allow you to plan a unique, working bathroom of supreme practicality, real beauty and ideal luxury.

Every piece in the Dea range is a contemporary design classic, but the dramatically tall totem basin deserves iconic status. Cast all in one piece, it creates a striking focal point.

Recent design trends have accustomed us to a cool, angular aesthetic in the home, but the future is feeling warmer and softer. Curved yet controlled, inviting yet elegantly poised, Dea's beautiful lines offer a perfect balance of chic design and pure pleasure. Reflecting our natural interactions, with body-friendly rounded corners and slim rims, Dea's softer, more feminine lines create a space that cossets and cocoons.

Available in Idealform and IdealformPlus+, the Dea double-ended bath echoes the range's seamless, sculptured forms. The bath sides fall away underneath the rim to create a sense of slender elegance; an ingenious styling feature that wins where space is a premium.

Clever storage solutions in soft, streamlined forms are intrinsic to the range. From round-cornered mirror cabinets and basin units to co-ordinated storage cabinets, every piece offers generous, well-planned space for a mood of serene escapism.

When you fall for Dea's soft styling, you can trust that every piece has been thoughtfully designed to make life more comfortable and enjoyable. And, perfectly complementing the Dea range, the Melange basin filler completes the experience.

# BATH IN LUXURY

From its gracefully flared sides and fluidly curved corners to the sophisticated slimness of its edges, the Dea free-standing double-ended bath is irresistibly inviting, promising an oasis of luxurious relaxation. This magnificent design provides a striking centrepiece around which to plan the rest of your bathroom.

# ELEGANCE IN ITS MOST WELCOMING FORM

Born out of a creative alliance between Italian designer Franco Bertoli and German design company Artefakt, Softmood ceramics, baths, furniture and accessories blend pure, straight lines with smooth curves and soft edges. This integrated bathroom collection celebrates simplicity in a new way, inviting lightness, openness and sensuousness into a harmonious synthesis with modernity. Discover a unique modern aesthetic – the perfect balance between contemporary clarity and elegant warmth.

Slim, refined shapes, pure colours and luxurious details create an elegant aesthetic, while highly sophisticated functionality takes care of the practical side of things. It's a principle that is reflected in every product and every detail, typified by our Softmood mirror that features anti-steam technology and bespoke curved LED lighting.

EXPERIENCE A NEW SENSE OF HARMONY. SOFTMOOD CREATES SPACE TO BREATHE – A HAVEN FREE OF THE DEMANDS OF EVERYDAY LIFE.

Pure lines and sweeping curves invite light and air into your bathroom, creating a sense of openness and space even in smaller rooms and en-suites. The clean design of each element complements any bathroom interior and the choice of basins, WC suites, baths, furniture and accessories provides complete versatility. Attitude taps and mixers make the ideal partner.

The collection's extraordinary flexibility allows you to create a bathroom that's the ideal expression of both your practical requirements and your personal sense of style.

Softmood's elegantly refined furniture is available in a wide selection of sizes and four luxurious finishes that offer the right colour choice for every preference.

With its refined, minimalist shape and sloping backrest, a Softmood bath lends a comfortable yet contemporary touch to your bathroom. Choose from single-ended and double-ended styles in Idealform and IdealformPlus+ to complement your bathroom perfectly.

STRADA

# MODERN LIVING SQUARED

With its square-edged look and high-fashion feel, Strada is the ultimate modern bathroom collection. A complete range of precisely crafted ceramics and complementary contemporary furniture brings a clean and unified atmosphere to your space.

The purest of minimalist forms crafted from top-quality materials, pristine white or moody grey finishes with smooth, sophisticated handles ensure the ideal balance of masculine and feminine, directional and classic. It's a look that will stand the test of time.

As the very definition of Minimalism and innovation, Synergy dual-access wet room systems complement the Strada range. The dual-access wet room, available with or without return panels, creates the perfect space for a truly luxurious experience.

## STRADA

Good storage is essential to achieve a successful minimalist environment. Strada's furniture range provides a comprehensive selection of drawer units and cabinets made using high-grade, robust materials, the highest quality hardware, immaculate finishes and soft-closing mechanisms for the sake of safety and zen-like peace.

While the basin is the focal point of your style statement, the Strada double-ended bath exhibits the same strong design principles that underpin the range. It is available in Idealform and Idealform Plus+ and two sizes.

The 'O' basin seemingly represents a radical departure from Strada's characteristic straight lines and right angles, but, in fact, the same minimalist principles apply. As a vessel basin, it sits elegantly on a shelf, countertop or mounted storage unit, and it's available in its round or oval form and a range of sizes.

# SENSUAL SIMPLICITY

The Tonic collection was conceived by Artefakt, a leading German design team that develops cutting-edge products based on simplicity, sensuality and constancy. Characterised by its simple shapes and clean lines, Tonic is an essential example of their creative philosophy and delivers extreme practicality. This, combined with a broad choice of products, offers the bathroom maker complete versatility.

The beauty of Tonic's understated design is that it effortlessly integrates into its surroundings. The soft, sensual curves recede into the space to create an uninhibited sense of openness.

Designed and made to the highest standards and with simplicity and functionality at its heart, each Tonic element will complement any bathroom interior. And add flexibility to the list of benefits when you consider the choice: basins with a semi-pedestal or full pedestal, two Idealform baths and a space-maximising corner bath, and close-coupled or wall-mounted WC suites. It all adds up to the freedom to create a beautiful use of space.

# MIXERS & TAPS

BUILT TO LAST  
WITH SELECTED SITES AND  
FACTORIES BASED IN EUROPE,  
WE ARE ABLE TO UPHOLD  
THE HIGHEST STANDARDS IN  
EVERYTHING WE DO.  
MANUFACTURING EXCELLENCE IS  
OUR HALLMARK, AND OUR  
GUARANTEE IS OUR PROMISE  
TO OUR CUSTOMERS.

## BUILT ON STRONG FOUNDATIONS

Our confidence in the quality of Ideal Standard design and manufacture is the reason we offer a genuine lifetime guarantee on all ceramic products. As well as this, Idealform, Idealform Plus+ baths and our shower trays are guaranteed for 25 years; shower enclosures, wet room panels and bath screens are guaranteed for ten years; and showers, bath panels, furniture, mixers and taps, WC suite seats, cistern fittings and many spare parts are guaranteed for five years.

## HAND-MADE QUALITY

Every member of the Ideal Standard team takes great pride in producing our robust, high-performing and stylish range of products. Collective and individual knowledge and experience, along with skill in hand and eye, are the key factors in our precise manufacturing processes and rigorous testing regimes.

Ideal Standard factory Wittlich, Germany

## MELANGE

# ADVANCED ENGINEERING MAKES A TIMELESS STATEMENT

Simple and beautifully understated, Melange is a timeless range of fittings that will blend effortlessly into any bathroom. Its simplicity belies the depth of advanced functionality that runs throughout this range. From advanced flow rates to retractable shower set and CLICK technology for water saving, Melange offers your home high performance, comfort and safety.

Designed by one of Europe's leading design team, Artefakt, Melange's sensual, contemporary lines are hugely tactile and will harmonise perfectly with almost any bathroom style.

#### For your ease and comfort

Melange features Ideal Standard's pioneering multiport ceramic disc cartridge technology which means you can control both flow and temperature from a single, easy-to-handle lever.

#### Safety first

Our temperature limit stop is designed to keep your family safe by letting you decide the right temperature for you. Even when the lever is fully open, it remains safe to use.

#### Easy fitting

To make fitting easy and convenient, we've incorporated our patented TopFix feature which means you can fix your basin and bidet fittings with pop-up wastes from above the units rather than below where there's less space to manoeuvre.

#### Saving you water

Melange's CLICK technology helps you to reduce the amount of water you use by letting you 'feel' with a click when the tap is delivering half of its flow potential. It also features a 5 litre per minute aerated flow regulator so you can save even more water.

Safe, comfortable  
bathing

Melange free-standing bath/shower mixer takes all the graceful organic spirit of Melange and re-imagines it in an elegant column arrangement. The slender profile makes it the perfect companion for the opulent Dea freestanding bath. The bath shower mixer itself features a self-cancelling diverter beneath the spout that allows the flow to be switched instantly from the tap to the retractable hand-held shower.

# AESTHETICS MEET PRECISION PERFORMANCE

Attitude is the ultimate fitting for the modernist. Its clean, minimalist lines combine with state-of-the-art functionality to bring you a highly superior product in looks and performance.

Created by European design team Artefakt, to enhance safety and maximise water saving in your home, Attitude has a range of innovative features including our clever Cool Body technology and a choice of outlets from simple stream to waterfall for an indulgent spa experience.

Classic outlet

Waterfall outlet

### Easy temperature control

Attitude's ceramic disc cartridges in the smooth, contoured handle allow you easy control of water flow and temperature. That means you can reduce wastage and enjoy increased efficiency.

### Your choice of basin mixer

Attitude's basin mixers are available with a choice of outlets, classic or waterfall. The waterfall outlet requires a 1.5 bar pressure so if yours is a low pressure installation, our classic outlet is preferable. This should be fitted with a flow straightener. The classic version is also supplied with a flow regulator to limit the flow to 5 litres per minute, enabling you to save water.

### Safety for your family

You can protect your children from scalding with our temperature limit stop. Attitude fittings allow you to set your desired level of heat from four preset temperature positions. Not only that, our Cool Body feature on all fittings in the range means young fingers stay safe at all times.

### Enjoy the best flow rates

Our multiport ceramic disc cartridge inside our single lever basin and bath filler means you're guaranteed the best flow rate, even at UK low pressures. The multiport cartridge on the bath mixer is an important design consideration if you want matching fittings that perform to the same exacting standards.

### Save water, cut costs

CLICK technology on Attitude's basin and bidet fittings means you can save water and do your bit for the planet and your purse. Simply lift the handle and you feel a click. This tells you you're using 50% of the water flow; lift it further and you will achieve maximum flow.

# ULTRA MODERN WITH MORE THAN A HINT OF LUXURY

Moments is an award-winning range of mixers and taps, the result of our collaboration with German design team, Artefakt. Part of a collection that includes washbasins, furniture and baths, the range, with its gentle curved profile, exudes luxury.

#### Unique design feature

Artefakt's novel wall mounted bath/shower mixer, which won the Red Dot Design Award in 2005, features a swivel spout that diverts the water from bath fill to shower mode. Please note, this mixer works on high pressure installations only.

#### Controlled bathing for your comfort

Moments also gives you maximum temperature and flow control in the bath with its Exofil combined bath filler waste and overflow option with remote mixer valve. Please note, this mixer works on high pressure installations only.

# ARCHIMODULE

## DESIGN FREEDOM, AESTHETIC PERFECTION

### Tailored solutions

This new generation of stylish modular fittings enables you to configure your own unique solution, tailor-made to suit your needs and your space. Innovative technology guarantees a flawless look every time, even on unusual tile sizes and unevenly plastered walls.

### Modular flexibility

Archimodule's pioneering modular concept offers complete design freedom. Select the components you require and position them where you like: there are countless possible combinations, so you can build a shower or bath system that matches your requirements exactly, from functionality to aesthetics.

Assemble your ideal system using our online configurator at [www.archimodule.idealstandard.co.uk/configurator.xhtml](http://www.archimodule.idealstandard.co.uk/configurator.xhtml)

# IT'S ALL IN THE DETAIL

Easy, precise, time-saving installation – with flexibility built in. That's what you can expect from Archimodule, thanks to the system's state-of-the-art technology and top-quality engineering. Create your dream design with ease.

## A SIMPLE EQUATION

**Mounting rail**  
The ingenious mounting rail makes it possible to arrange your chosen modules quickly and accurately. It allows convenient pre-assembly of the components, which can then be fitted in the wall as one unit.

**Built-in thermostat unit**  
This unit, which houses the flow and temperature controls, is the foundation block of nearly every Archimodule configuration.

**Built-in universal unit[s]**  
Most Archimodule solutions comprise a thermostat unit plus one universal unit for each function required. These are the only two flush-mounted units needed to create all the possible design permutations.

### YOUR IDEAL SOLUTION

The simplified system makes ordering easy and leaves the design so flexible it can even accommodate last-minute changes.

### Installation options

Depending on the position of the installation, additional accessories may be required.

### Installation depth

At just 78 to 95mm deep, Archimodule's flush-mounted units offer one of the shallowest installation depths available.

### Guaranteed waterproof

Every Archimodule assembly has triple protection against water penetration:

- Escutcheon seals;
- A sealing sheet between the tiles and built-in units; and
- Rubber seals where pipes connect to the body of a concealed unit, to prevent water seeping into the wall

### Uniform projection

The telescopic feature permits different installation depths of up to 17mm to be easily levelled.

### Fast connection

Brass push-fit connectors make joining the flush-mounted modules quick and easy. All the connectors you need are supplied with the units, along with a special tool to loosen them.

### Innovative FAST-FIX features

- Protruding connectors to allow for easy push-fit assembly.
- Spirit-level support surfaces to aid alignment.

# CLOAKROOMS

To designer Dick Powell, the cloakroom wasn't an afterthought, it was a fresh and challenging brief. Consequently, Dea takes on a smaller space with an attitude of no compromise. None of its charm or sophistication is lost in the scaling-down process, and ingenious storage saves the day.

When planning your cloakroom, Softmood provides a tailored solution. With its slim, uncomplicated profile, the Guest basin and its accompanying storage unit drops into a limited space with quiet ease.

Strada's absolute purity of form naturally lends itself to a restricted environment. The handrinse countertop basin represents a perfect exercise in exact ergonomics. And the fact that it can sit on a unit or bespoke shelf makes it simple to incorporate.

Tonic offers two approaches to the fitting and furnishing of cloakrooms: one, opt for the specifically designed Tonic Guest suite (pages 96 – 99), or two, retain the full character of the main collection by utilising the Tonic semi-pedestal basin and wall hung WC.

Tonic Guest is a great solution for small spaces. Contemporary and beautifully designed products are now available in a Dark Oak effect and High Gloss Black, for an ultra-sleek modern bathroom.

The storage solutions really help to keep things streamlined by providing a generous amount of cupboard space to conceal plumbing and store all those bathroom products.

## TONIC GUEST

Tonic Guest is a wide range of innovative modern furniture, basins, units and accessories which combine together cleverly in very different configurations to create washing facilities and storage in confined spaces.

The full solution of basin, cabinet and mirrors with integrated fittings along with co-ordinating accessories aim to provide large amounts of storage in minimal space.

# SHOWER ENCLOSURES & WET ROOMS

# LIVE LOVE SHOWER

When it comes to creating the shower you want, at Ideal Standard, we listen. That's why our ranges offer not just the very best design and quality, but respond to your every need.

All our shower enclosure collections offer the comfort and style you'd expect from Ideal Standard. Every piece is expertly designed and built using the highest quality materials and what sets them apart is their sheer usability, ensuring easy cleaning, simple maintenance and maximum enjoyment.

## Choose the frame style you desire

We offer a wide choice of enclosures in a variety of styles. From frameless to semi-framed, fully framed to walk ins and wet rooms, we've enclosures for every style of bathroom.

The frame finish also differs across each range to complement the styling. Check the matrix for details.

## Choose your glass thickness

All Ideal Standard shower enclosures are manufactured from toughened safety glass. As tastes and budgets differ, a range of thicknesses are offered from 4mm to 8mm.

## Designer handles

Designed to last with a sleek, ergonomic finish and solid construction, handles look as good as they feel whilst withstanding the test of time. Careful consideration has been given to each design to ensure that not only is it comfortable to use with that door, but that it also shows off the enclosure.

## FEATURES

Expert engineering means our collections are full of clever features which make them not just a pleasure to use every day but easy to install, clean and maintain. As each range is individual, check each door for applicable features.

### Glass thickness

Toughened safety glass thickness.

### Smooth-running wheels

Quality wheels mean doors glide along effortlessly and silently.

### Rise and fall hinges

Ensure doors open and close with ease.

### Idealclean

For glass that's easier to clean and stays cleaner for longer, reducing cleaning time by up to 90%.

### Concealed fixings

The cover profiles click easily into place during installation and combine with top caps to ensure that all fixings are concealed.

### Horizontal adjustment

Allows perfect fitting to out-of-true walls. Check each collection for adjustment values.

### Horizontal and vertical adjustment

The profile can be adjusted both vertically and horizontally to allow fixing into grout lines rather than into tile centres.

### Click and clean

The lower wheels and panels can be released to expose them for thorough cleaning. The panel then easily clicks back into position to create a watertight seal.

### Power shower proof

The enclosures have been tested to ensure that they are power shower proof, so even with the most invigorating of showers the seals remain watertight.

### Guarantee

All Ideal Standard Shower enclosures are backed by our comprehensive guarantee.

### Time saving

These units offer an installation feature that makes them quicker to fit.

## TONIC

# ELEGANCE UNLIMITED

Tonic makes sophistication look effortless. Frameless edges and dynamic shapes meet with high-quality finishes to create the ultimate in long-lasting contemporary design.

### Timeless contemporary design

Clean lines, frameless glass and minimalist forms make for a style that never dates.

### Size matters

With sizes including space efficient 800mm quadrants and 1600mm alcoves, the design's openness offers a more comfortable shower experience.

### Dynamic design

Considered details such as the consistent styling of the hinge bracket and handle make for a more original and elegant design.

By maximising floorspace, Artefakt's Tonic Quadrant and Offset Quadrant designs come into their own when space is a limited. And their elegantly curved doors, frameless 8mm glass and contemporary chrome fittings mean they lose none of the sophisticated styling that is common to the range.

With a range of sizes, shapes and door configurations, the Tonic range offers the versatility to accommodate any bathroom. Tonic's Alcove, Corner Entry and Corner Door styles are designed to solve the most frequently occurring layout scenarios, while upholding the same high quality of design.

## SYNERGY

# STEP INTO A NEW WORLD OF SHOWERING

With its semi-framed design and exposed glass edge doors, Synergy has been created to open out your shower space for seamlessness and harmony throughout your bathroom.

### Contemporary look

Semi-framed edges bring a fresh, contemporary look and feel to your bathroom.

### Flexible installation

Horizontal adjustment allows the perfect fit for your space.

### Wide range

From space-saving quadrants and pentagons to 1700mm sliding bath replacements, Synergy has all that you need.

Synergy 1700 slider

Following Synergy's guiding principle of effortless showering, the graceful swing of Pivot's doors inspires a feeling of luxury. The bare glass edges and concealed seals and fixings create a sensation of unencumbered lightness.

Our Synergy range offers both luxury and practicality with a number of smart designs to open up your bathroom planning options. The Corner Entry, Infold and Pentagon each present inward-opening door solutions in a stylish and effortless way.

Sleek, minimal and confidently contemporary, our wide range of sensational Synergy wet room panels will guarantee a bathroom with wow factor. Sealing channels, refined brackets and concealed fixings are the secret to a seamless finish. And for maximum showering freedom, Synergy Dual Access is unparalleled.

# PRODUCT INFORMATION & PRICE LIST

Our 100 years of experience gives us complete confidence in the quality and reliability of all Ideal Standard products, many of which are backed by long guarantees for your lasting peace of mind. Our products have been designed to make your planning easier and set your imagination free. All dimensions are shown in millimeters.

## Archimodule wall spout (with integrated diverter)

Model	Ref.	Price
wall spout with integrated diverter	<a href="#">A1514AA</a>	£202.99

- Includes fixing to universal unit
- Cast spout, projection 190mm with aerator
- Integrated automatic diverter with backflow preventer at the shower outlet
- Without escutcheon
- Chrome plated

## Archimodule Shower system (without rainshower)

Model	Ref.	Price
Shower system	<a href="#">A1530AA</a>	£514.20
Shower system with integrated automatic diverter	<a href="#">A1531AA</a>	£635.99

- Includes fixing to universal unit
- Water-bearing shower rail
- With integrated wall elbow
- With rotating slider
- Connection for shower head 1/2" male
- Without escutcheons
- Chrome plated

with integrated diverter

### Archimodule Stick hand spray

Model	Ref.	Price
Stick hand spray	<b>A1519AA</b>	£54.12

- Single-function
- Connecting thread 1/2" male
- Chrome plated

### Archimodule Idealrain rainshower

Model	Ref.	Price
Ø300mm	<b>B9443AA</b>	£328.40
Ø200mm	<b>B9442AA</b>	£127.98

- Connecting thread 1/2" male
- With ball joint
- Pivots through 10°
- Anti-limescale
- Chrome plated

### Archimodule Idealrain rainshower

Model	Ref.	Price
300x300mm	<b>B9844AA</b>	£377.88
400x400mm	<b>B9845AA</b>	£510.46

- Connecting thread 1/2" female
- With ball joint
- Pivots through 10°
- Anti-limescale
- Chrome plated

### Archimodule Wall connection 370mm

Model	Ref.	Price
Wall connection 370mm	<b>A1524AA</b>	£168.86

- Wall connection for shower head
- 1/2" male
- Includes fixing to universal unit without escutcheon
- Chrome plated

### Archimodule Ceiling connector 150mm

Model	Ref.	Price
Ceiling connector 150mm	<b>B9446AA</b>	£45.72

- Ceiling connector for shower head 1/2" male
- Includes escutcheon
- Chrome plated

### Archimodule Shower rail

Model	Ref.	Price
600mm	<b>A1526AA</b>	£282.80
900mm	<b>A1528AA</b>	£297.68
600mm with integrated wall elbow 1/2" male	<b>A1527AA</b>	£349.62
900mm with integrated wall elbow 1/2" male	<b>A1529AA</b>	£364.50

- Includes fixing to universal unit with rotating slider
- Without escutcheons
- Chrome plated

### Archimodule Wall bracket for hand spray

Model	Ref.	Price
Wall bracket for hand spray	<b>A1520AA</b>	£56.83

- Includes fixing to universal unit
- Without escutcheon
- Chrome plated

### Archimodule Wall elbow

Model	Ref.	Price
Wall elbow	<b>A1521AA</b>	£93.53

- Includes fixing to universal unit
- Includes backflow preventer
- DVGW approved as intrinsically safe [German Technical and Scientific Association for Gas and Water]
- Connecting thread 1/2" male without escutcheon
- Chrome plated

### Archimodule Idealflex shower hose

Model	Ref.	Price
1.25m	<b>A3306AA</b>	£33.40
1.6m	<b>A330AA</b>	£37.41
1.75m	<b>A4109AA</b>	£46.60

- Smooth metal effect connecting thread
- 1/2" female x 1/2" female
- Chrome plated

## Important installation and maintenance information

A key element in the performance of a bathroom is the quality of the installation. We recommend you use a plumber from a registered association (see below) and consult him (or her) right from the start. Your local Ideal Standard stockist may offer a plumbing service or, if not, will be able to recommend a qualified plumber.

**Recognised plumbing associations**  
Association of Plumbing & Heating Contractors (APHC)

## Important cleaning information

It is important to clean your shower door after every use, wiping down all the glass and metal parts with a soft cloth and removing any residual water.

Clean regularly with warm soapy water to avoid lime scale build up, especially in hard water areas. Limescale that is allowed to build up will be difficult to remove.

Do not clean with gritty or abrasive products; they will destroy any surface coating or protection.

## Conditions

1. This guarantee applies only to products purchased and installed in the United Kingdom or the Republic of Ireland.
2. Proof of purchase is required in the event of a claim.
3. Provision of the barcode/serial number will be required to enable product identification.
4. We must be given the opportunity to inspect the product, if we request to do so. The product should not be removed or destroyed before inspection without our consent. We may request photographic evidence in any investigation.
5. The product must have been installed, used and cared for in accordance with our instructions for installation and care. In addition, the products must have been installed in accordance with good plumbing practice.
6. Where our on-site investigation reveals that the reported fault was not due to manufacturing or materials defect a callout charge will be applied.
7. Where we are satisfied that a defect has arisen because of faulty manufacturing or materials we will, at our option, repair or replace the product free of charge

8. This guarantee does not apply to general wear and tear or where, in our opinion, the product has been modified, misused, neglected or wilfully or accidentally damaged.
9. This guarantee does not cover consequential damage or loss.
10. This guarantee does not cover damage and/or malfunction caused by inappropriate cleaning (please refer to our recommended care and maintenance guidelines).
11. Mildew build up, the effects of limescale and corrosion are not covered under this guarantee.
12. Glass breakage and any consequential damage. (All glass used conforms to EN12150-1 where applicable). Breakage of glass is not covered by the guarantee as glass by its very nature can shatter.
13. Warranty is not transferable in cases where product is reinstalled in subsequent locations.

Never use powder detergents. Liquid detergents may be used if they are free of alcoholic substances.

Never use products such as ammonia, acetone, alcohol and the like because they may permanently damage the shower enclosure.

Care should be taken to avoid contact with strong chemicals such as organic solvents and strippers.

## Guarantee

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime.

Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Idealform and Idealform Plus+ acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website www.fastpart-spares.co.uk).
4. Shower enclosures, wetroom panels and bath screens are guaranteed for ten years and shower trays for 25 years.
5. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
8. The guarantee is transferable "it applies to the product not the purchaser" provided guarantee registration details are passed on to the new owner.

14. Idealclean glass coating is covered by a one-year guarantee. (Subject to appropriate maintenance and cleaning).
15. Non glass or metallic spare parts (e.g. seals and bearings) are subject to normal wear and tear through usage and are therefore covered on all products for two years from installation. These parts will be charged thereafter. Thereafter, such parts are available for purchase through our parts supply service.
16. This guarantee does not affect your statutory rights.

Ideal Standard pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
