TRADITIONAL & CONTEMPORARY TAPS

CATALOGUE
JULY 2013

Traditional taps in six styles

Most of the traditional fittings shown in this brochure are from the 1890's (GA) range which have the original exposed top works, with traditional rubber tap washers. An alternative to this style is the Regent (R) range with "easy-clean" shrouded head parts. The code numbers for the Regent range are the same as the 1890's

range but are prefixed with the letter 'R' instead of 'GA'. For most Regent and GA styles we can now supply ceramic disc headworks. Regent ceramic disc (RCD) and GA ceramic disc (GCD). These give traditional styling with state of the art ceramic disc internals.

The Mastercraft (MC) range is based on our original 1930's design and incorporates a stylish Art Deco theme of hexagonal capstans, shrouds and spouts. Again, the code numbers are the same as the 1890's range but are prefixed with the letters 'MC' instead of 'GA'. Mastercraft is not available with ceramic disc headworks.

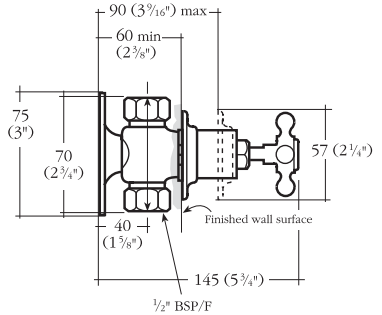

Throughout this catalogue taps which are available with ceramic discs are labelled with the suffix CD.

TT1250WS (Also available TCD) 1/2" Wall stops.	
	

6470 GA shown. Also available as R, GCD & RCD Monobloc basin mixer with pop-up waste.	
6471 With plug and chain waste and chain boss on body.	
6472 With plug and chain waste and chain stay.	
	

Basin Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
<p>6450 (GA shown. Also available as R, RCD & GCD) 3-hole basin mixer with pop-up waste, 115mm nozzle.</p> <p>6455 As above but 140mm nozzle.</p> <p>6451, 6456 With plug and chain waste and chain boss on nose.</p> <p>6452, 6457 With plug and chain waste and chain stay.</p> <p>As above but RFC style</p>					
					
<p>6453 (GA shown. Also available as R, GCD & RCD) 3-hole basin mixer with swivel swanneck filler.</p> <p>As above but RFC style.</p>					
					
<p>6454 (GA shown. Also available as R, GCD & RCD) Wall mounted nozzle with valves. Waste not included.</p> <p>As above but RFC style.</p>					
					

Basin Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
					
<p>6459 (Regent shown. Also available as GA, GCD & RCD). 3-hole basin mixer with pop-up waste and swan-neck filler.</p> <p>As above but RFC style.</p>					
					
					
<p>6008 (Regent shown. Also available as GA, GCD & RCD). Retractable hairdressers' basin mixer with flexible hose and shampoo spray. Rests in a flush fitting independent holder. Incorporating single check valve to comply with Water Byelaws.</p> <p>As above but RFC style.</p>					
					
					
<p>1870 (GA shown. Also available as R) Monobloc bidet mixer for single hole rim. With pop-up waste and adjustable nozzle.</p>					
					

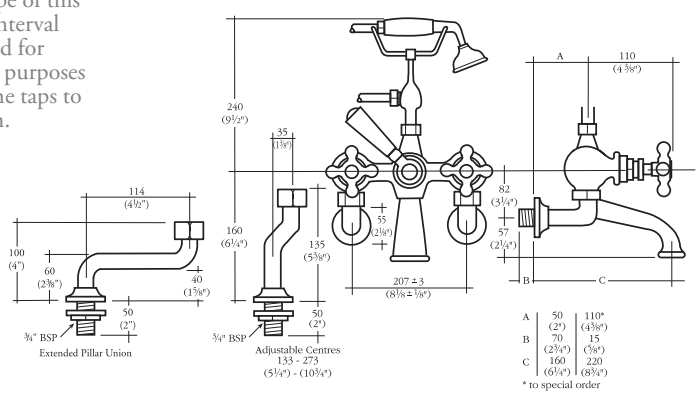

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
---------------	---------------	----------------	----------------	------------------------	----------------------------

4300 (GA shown. Also available as R, GCD & RCD)
 Bath/spray mixer for bath rim mounting.
 Incorporates single check valve to comply with Water Byelaws.

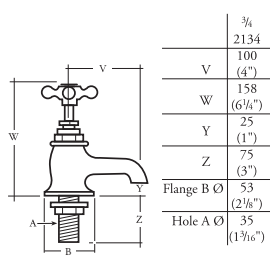

4308
 As above but with unions for wall fixing.

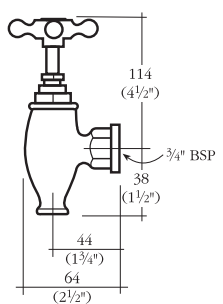

Note: Due to the traditional shape of this mixer a short interval must be allowed for draining down purposes after turning the taps to the off position.

2134 (GA shown. Also available as R, GCD & RCD)
 3/4" bath pillar tap with 4" nose.

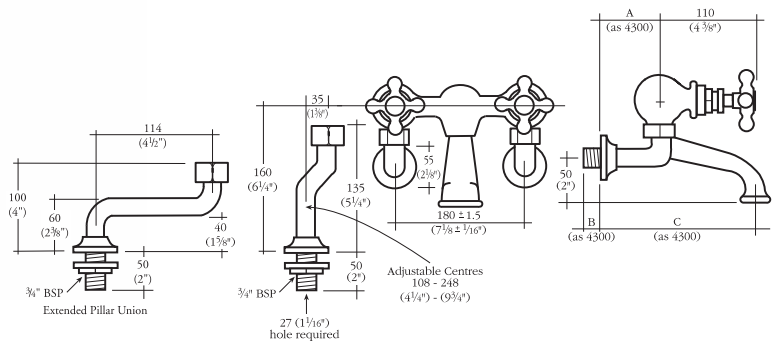

900 (GA shown. Also available as R)
 3/4" globe tap for bath fixing.

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
---------------	---------------	----------------	----------------	------------------------	----------------------------

3308 (GA shown. Also available as R, GCD & RCD)
Bath filler with wall unions.

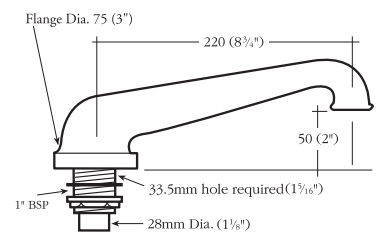

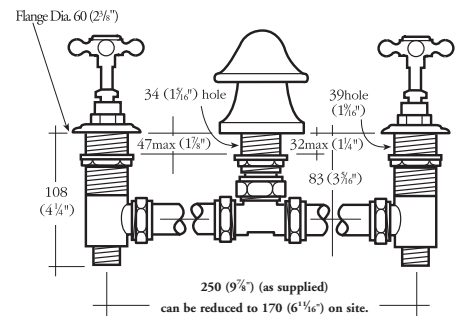

3300
As above but for rim mounting.

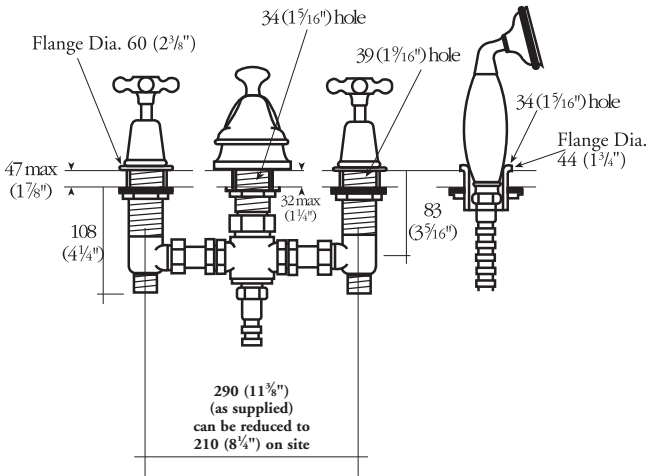

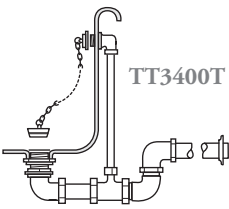

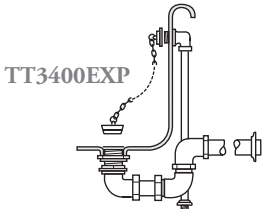

3480SET (Regent shown. Also available as GA, GCD & RCD)
3/4" deck bath valves and nozzle to form bath filler.

3480DV
3/4" Deck valves. Pairs.

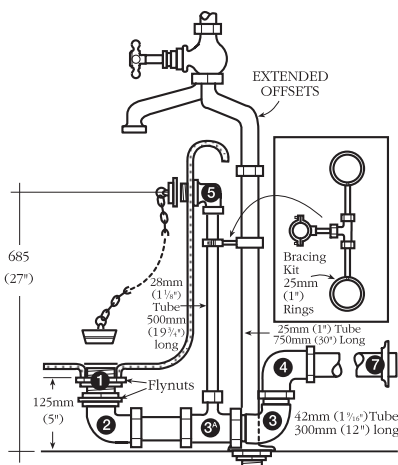

TT3480DN
1" deck bath nozzle - 8 3/4" projection.

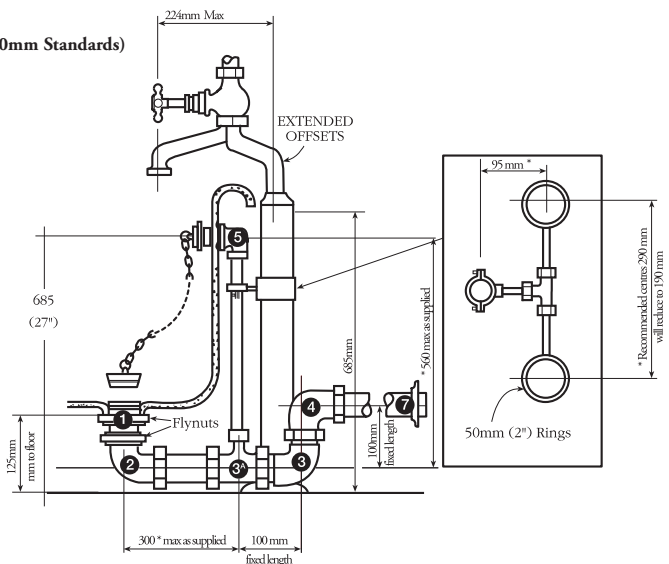

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	3484SET (Regent shown. Also available as GA, GCD & RCD) A 4 hole deck set comprising hot and cold valves, diverter/ nozzle, and pull up hand spray Incorporates single check valve to comply with Water Byelaws.				
					
	4309RT (Available as GA, R, GCD & RCD) Bath/spray mixer with 1" (25mm) floor standards and bracing kit and 3400T waste.				
	4310RT (Available as GA, R, GCD & RCD) Bath/spray mixer with 2" (50mm) floor standards and bracing kit and 3400T waste.				
	4311RT (Available as GA, R, GCD & RCD) Bath/spray mixer with 2" (50mm) floor standards and bracing kit and 3400EXP waste.				
	4312RT (Available as GA, R, GCD & RCD) Bath/spray mixer with 1" (25mm) floor standards and bracing kit and 3400EXP waste.				
	TT3400T Bath waste, overflow to trap and 42mm tube.				
	TT3400EXP Bath waste, overflow to flow, trap and 42mm tube.				
	TT3400DP Bath waste, overflow to floor.				
	Note: The above assemblies are available with bath fillers to replace the bath/spray mixers and are then designated 3309-3312.				
	 TT3400T				
	 TT3400EXP				
	 TT3400DP				

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	TT3425/42 Floor standards for under roll.				
	PS55 42mm trap complete with waste plug and chain.				
	PS56 42mm elbow (to take trap outlet through floor).				
	PS57 42mm x 300mm length of tube.				
	PS57A Flange plate for 42mm diameter tube.				
	TT2"3425 pair 50mm floor standards.				
	TT2"679 Bracing kit to suit 50mm floor standards only.				
	TT1"3425/679 Pair 25mm. Floor Standards with Bracing Kit.				

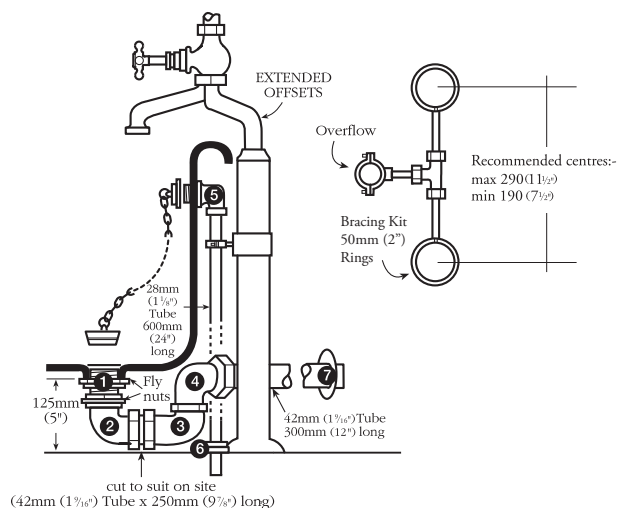

4309RT (25mm Standards)

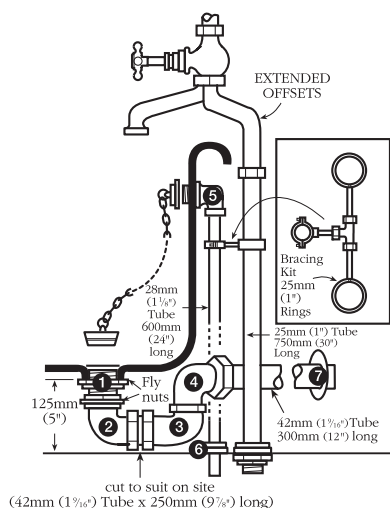

4310 (50mm Standards)

4311 (50mm Standards)

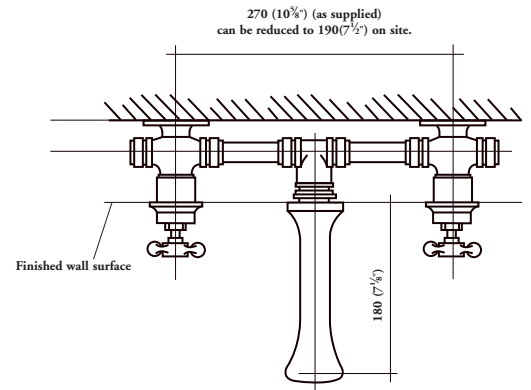

4312 (25mm Standards)

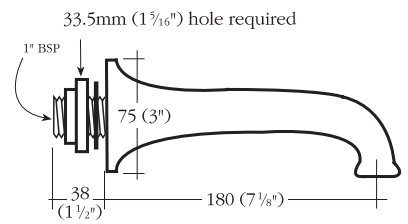

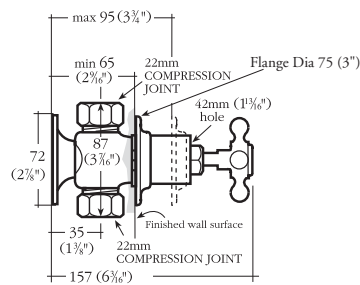

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
---------------	---------------	----------------	----------------	------------------------	----------------------------

TT3450 SET
 3/4" Concealed 3 hole bath filler
 (incorporates wall stops, nozzle, compression tee and connections).

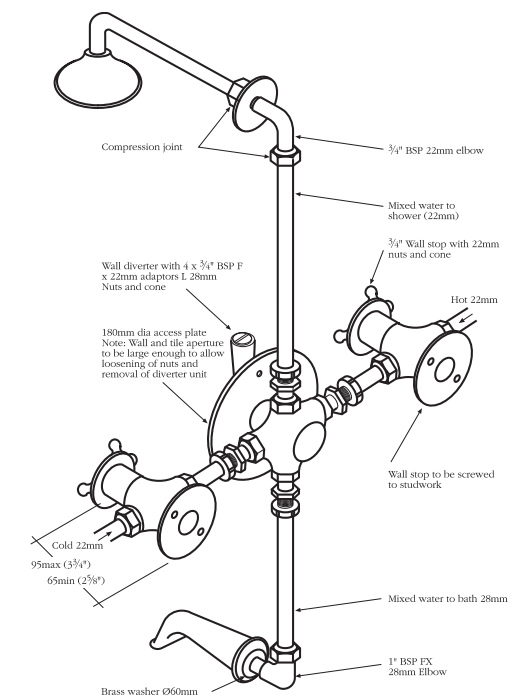

TT3450WS
 3/4" Wall stops.

TT3450WN
 1" Wall nozzle.

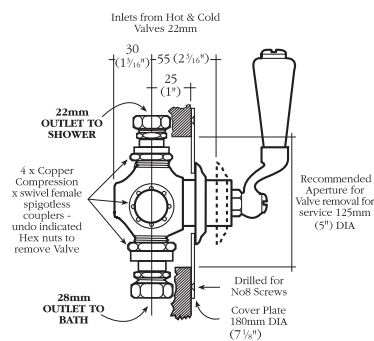

TT3452SET
 3/4" Concealed 5 hole bath/shower mixer (incorporates wall stops, nozzle, diverter, compression fittings, back inlet, 17 1/2" (450mm) shower arm and 5" rose).

Note: For alternative size shower arms and roses, please refer to page 18

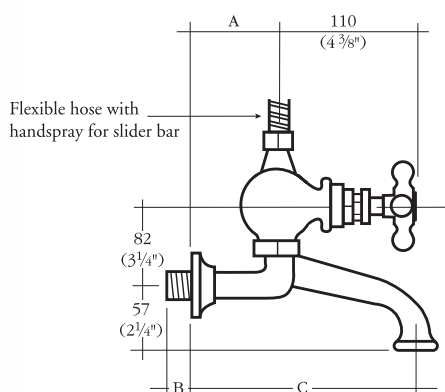

NOTE: Assembly includes all compression fittings but not tubes

TT3450WD
3/4" Wall diverter.

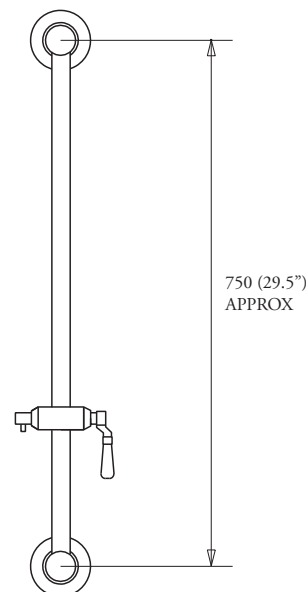

4306 (GA shown. Also available as R, GCD & RCD)
Bath/spray mixer with slider bar.
Wall mounting. Incorporates single check valve to comply with water byelaws.

4305
As above but for deck mounting.
Incorporates single check valve to comply with water byelaws.

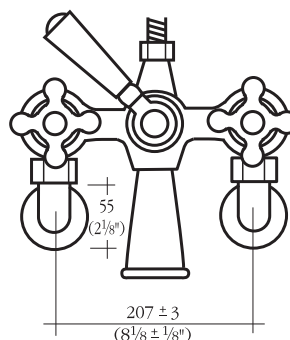

A	50 (2")	110* (4 3/8")
B	70 (2 3/4")	15 (5/8")
C	160 (6 1/4")	220 (8 3/4")

* to special order

Slider bar available separately. See page 17.

Bath Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
---------------	---------------	----------------	----------------	------------------------	----------------------------

4302 (GA shown. Also available as R, GCD & RCD)

Bath/shower mixer. Wall mounting.

4301

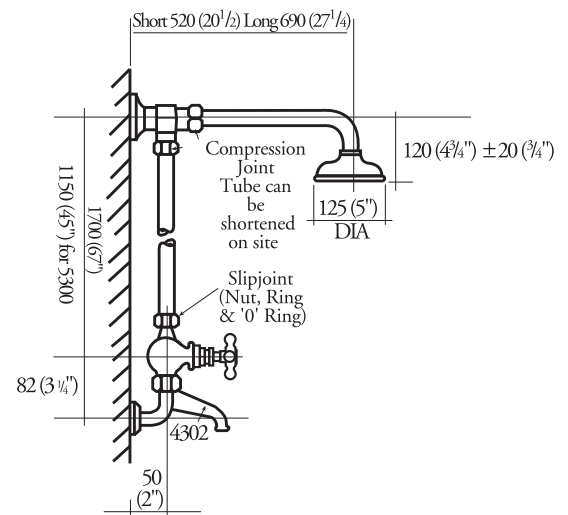

As above but for deck mounting.

Above items are supplied with 17 1/2" (450mm) shower arm and 5" rose.

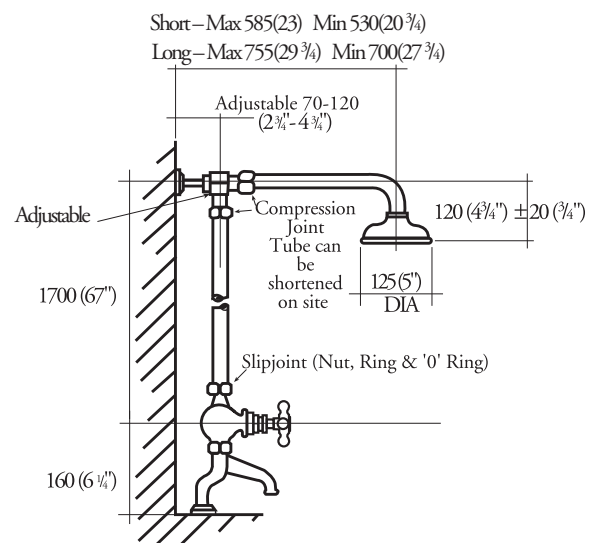

Note: For alternative size shower arms and roses, please refer to page 18.

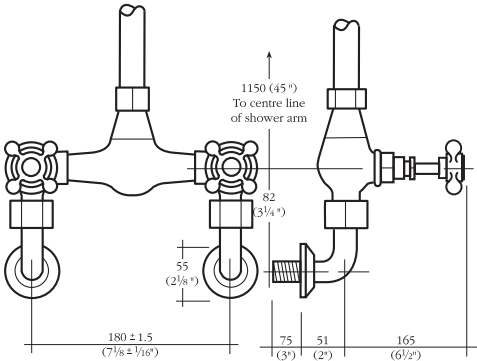

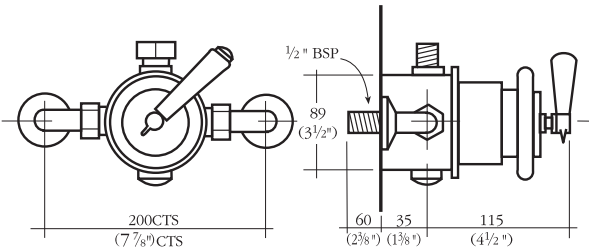

'B' RISER KIT FOR 4302

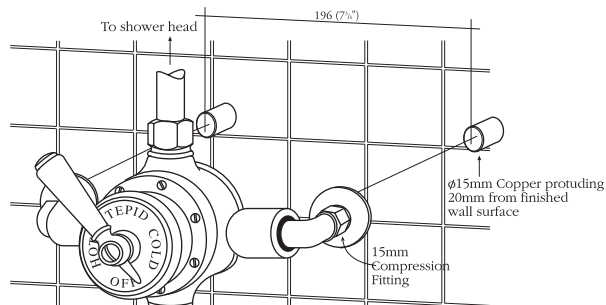

'C' RISER KIT FOR 4301

Shower Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	6000 (GA shown. Also available as R, GCD & RCD) Manual shower mixer with handspray and supporting cradle. Incorporates single check valve.				
	5300 (GA shown. Also available as R, GCD & RCD) Manual shower mixer with fixed riser. Manual shower mixer with fixed riser, 17 1/2" (450mm) shower arm and 5" rose. Note: For alternative size shower arms and roses, please refer to page 18.				
					
					
Thermostatic Shower Fittings	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	PS53 Exposed Thermostatic mixer valve only and inlet bends.				
					

PS53 CU

Exposed Thermostatic mixer valve only
and inlet bends with compression elbows
suitable for 15mm dia. copper tube.

Thermostatic Bath Showers	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
---------------------------	---------------	----------------	----------------	------------------------	----------------------------

5700BA (Regent shown, also available as GA, GCD & RCD)

Thermostatic dual control shower/bath filler.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

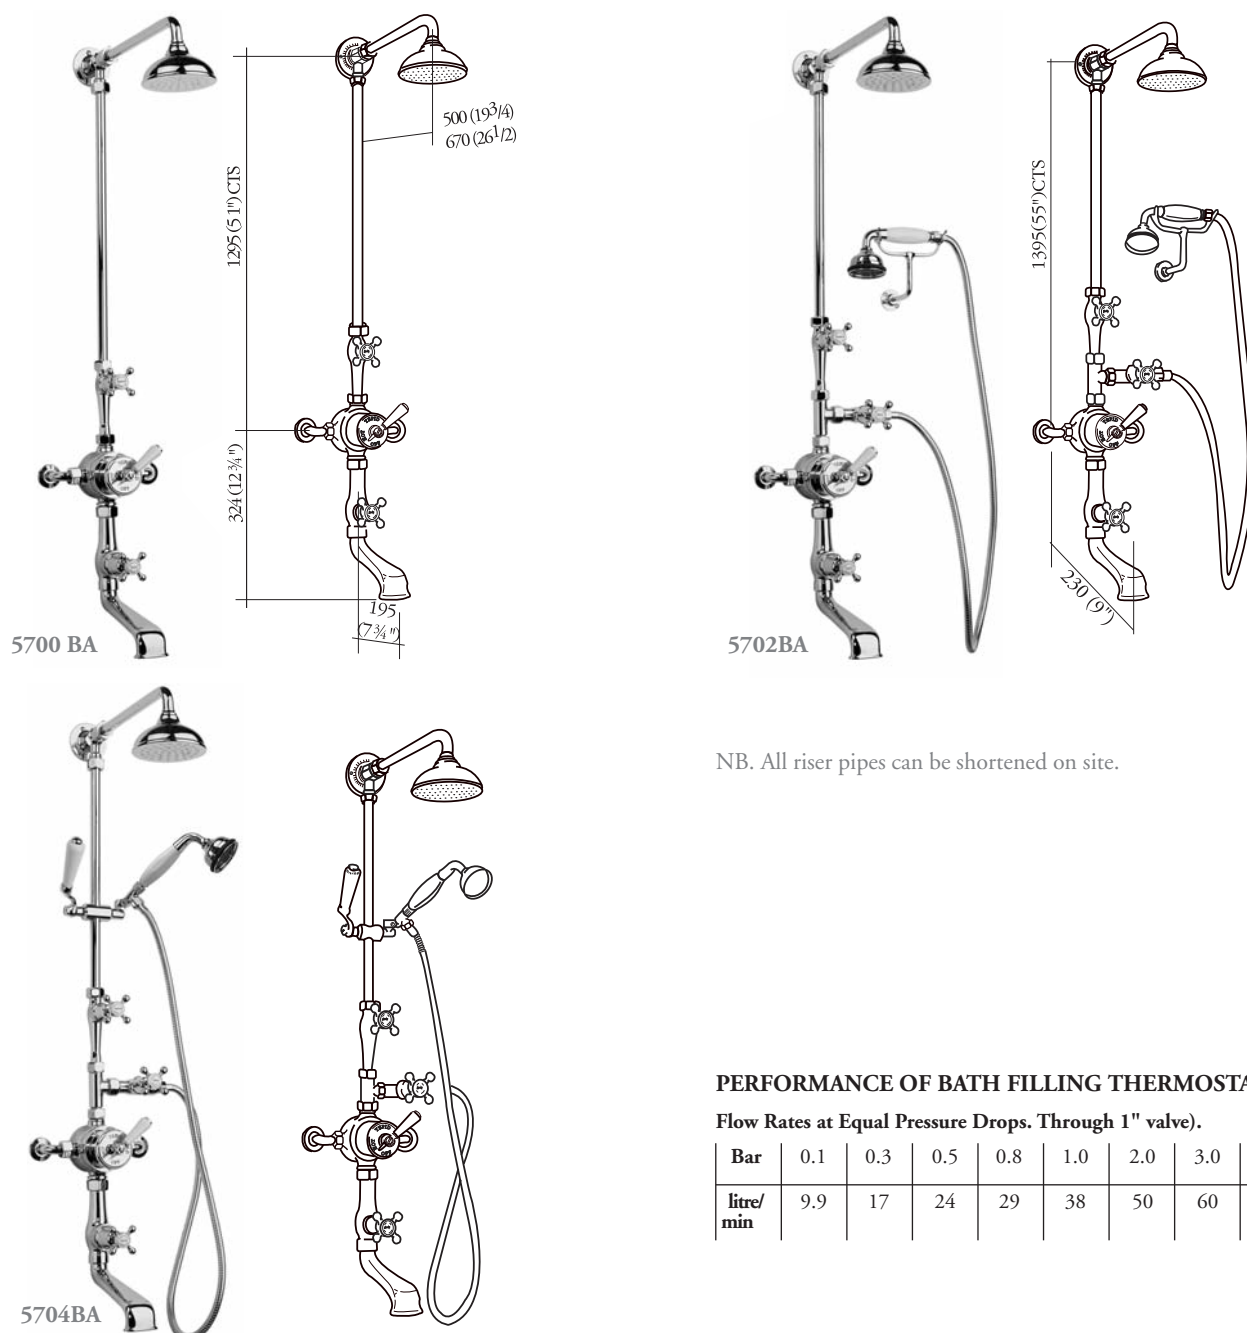

5702BA (Regent shown, also available as GA, GCD & RCD)

Thermostatic triple control shower/bath filler with handspray on wall mounted cradle.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

5704BA (Regent shown, also available as GA, GCD & RCD)

Thermostatic triple control shower/bath filler with handspray mounted on slider/riser tube.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

Note: For alternative size shower arms and roses, please refer to page 18.

NB. All riser pipes can be shortened on site.

PERFORMANCE OF BATH FILLING THERMOSTATIC VALVE

Flow Rates at Equal Pressure Drops. Through 1" valve).

Bar	0.1	0.3	0.5	0.8	1.0	2.0	3.0	4.0	5.0

Above items are all shown with a 5" rose alternative roses are available - please see page 18 for further details.

TT5600

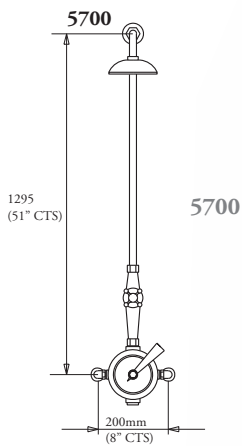

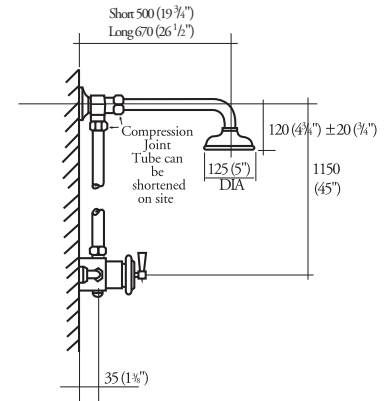

TT5600

Thermostatic mixer with fixed overhead shower.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

MC5600

Mastercraft version of thermostatic mixer
with fixed overhead shower.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

Note: For alternative size shower arms and roses,
please refer to page 18.

'A' RISER KIT FOR 5600

5700

5700 (Regent shown, also available as GA, GCD & RCD)

Thermostatic mixer with fixed overhead shower and separate valve.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

5704 (Regent shown, also available as GA, GCD & RCD)

Thermostatic mixer with separate valves to control overhead and hand shower on slider.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

5702 (Regent shown, also available as GA, GCD & RCD)

Thermostatic mixer with separate valves to control overhead and hand shower on cradle.
Supplied with 17 1/2" (450mm) shower arm and 5" rose.

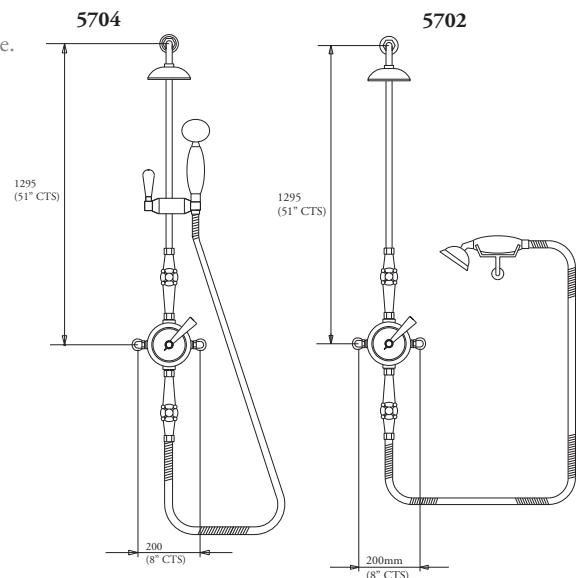

Note: For alternative size shower arms and roses,
please refer to page 18.

NB. All riser pipes can be shortened on site.

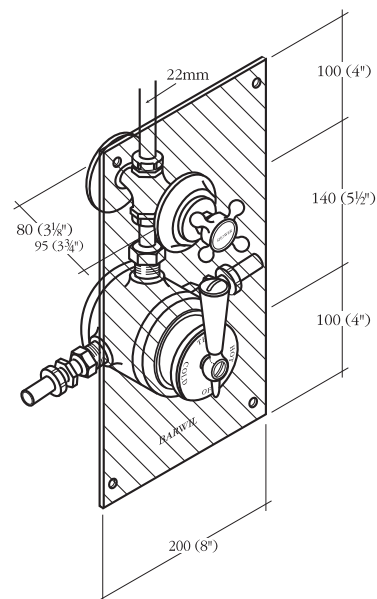

5704

5702

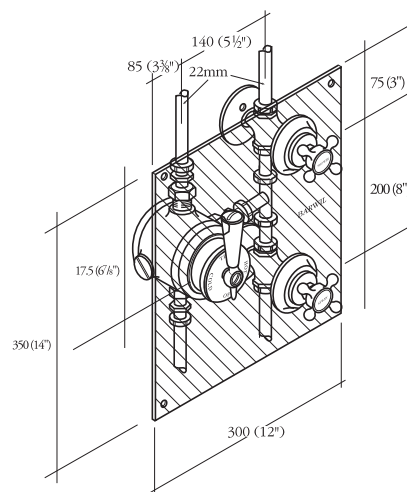

Above items are all shown with a 5" rose
alternative roses are available - please see
page 18 for further details.

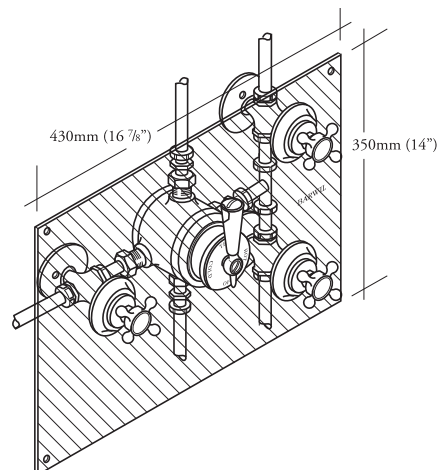

PS53C1 & PS53C1-CD (Ceramic Disc)
Recessed thermostatic shower mixer
on rectangular plate with separate flow valve.

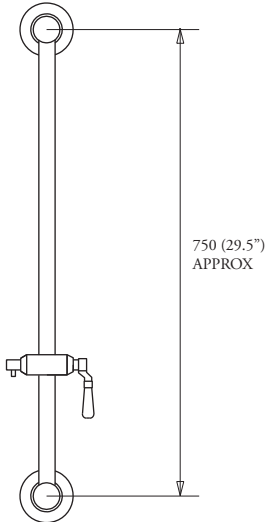

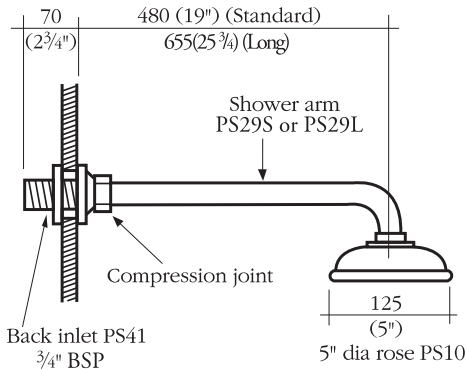

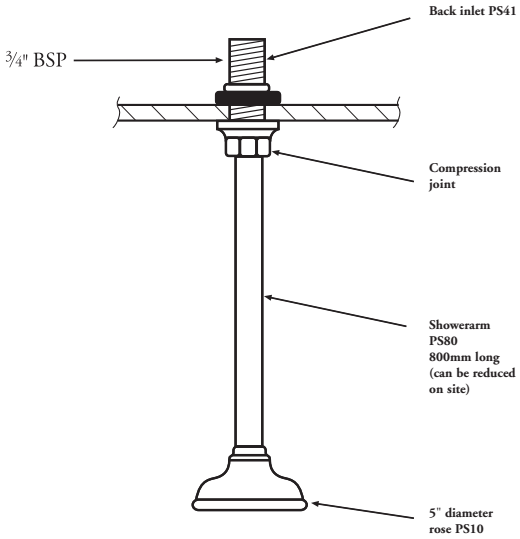

PS53C2 & PS53C2-CD (Ceramic Disc)
Recessed thermostatic shower mixer on
square plate with separate flow valves for
shower & spray.

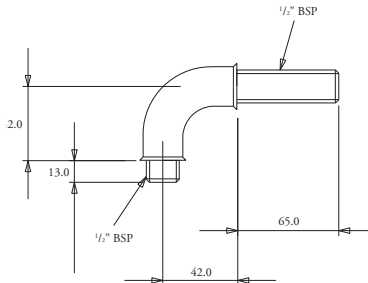

PS53C3 & PS53C3-CD
Recessed thermostatic shower mixer on
square plate with separate flow valves for
shower, spray & bath.

Handspray & Shower Arms	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	6001 (GA shown. Also available as R, GCD & RCD) Manual shower mixer with handspray and wall mounted slider bar. Incorporating single check valve to comply with Water Byelaws.				
	TT28821BW Slider Bar Complete (handspray and flex please order separately as PS03 refer to page 19).				
					
					
	PS16 Comprises standard 17 1/2" shower arm, back inlet and 5" rose. For any variations please order individual components as set out on page 18.				
					

Shower Arms & Shower Accessories	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	<p>PS73 Comprises standard 800mm straight shower arm, back inlet and 5" (125mm) rose. For any variations please order individual components as set out below.</p>				
	<p>Back inlets available:</p> <p>PS41 back inlet MCPS41 Mastercraft style back inlet.</p> <p>Shower arms available:</p> <p>PS29S 17 1/2" (450mm) shower arm. PS29L 24" (600mm) shower arm. PS45 10" diameter rose. PS46 12" diameter rose.</p>				
	<p>PS50 Wall Mounted Cradle for Handspray.</p>				

Shower Accessories	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	TT67 S/Kit for GA or R fittings MC67 S/Kit for Mastercraft fittings Designed to provide a handspray with a flexible hose as an optional attachment to a manual or thermostatic fixed overhead shower. Kit comprises handspray, cradle and two-way diverter.				
	PS60 Ball joint swivel rose available on all showers at additional cost. PS61 4" skirted rose.				
	TT3430 Shower Tray Waste. 85 (33/8") dia. flange x 85 (33/8") tail (1 1/2" BSP).				
	PS62 Wall outlet (1/2" BSP outlet).				
					
	PS05 Flexible hose.				
	PS03 Flexible hose complete with handspray.				
	PS02 Handspray.				
	TT61600 Wall bracket and swivel connector. (PS03 handspray and flex order separately).				

Wastes & Cistern Levers	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	TT3408W Bath pop-up waste and overflow set 550mm flexible tube and cable.				
	TT3408W-EXT As above with 900mm flexible tube and cable				
	TT3408W-XXL As above with 1300mm flexible tube and cable				
	TT3410 Basin waste with brass plug and chain. 60mm (2 3/8") dia. flange x 85mm (3 3/8") tail (1 1/4" BSP)				
	TT3435 Slotted sink waste. 85mm (3 3/8") dia. flange x 85mm (3 3/8") tail (1 1/2" BSP)				
	TT3400 Bath waste, plug, chain and overflow set. 72mm (2 7/8") dia. flange x 72mm (2 7/8") tail (1 1/2" BSP)				
	TT3420/15 Cistern lever handle with 150mm shank.				
	TT3420/25 As above with a 250mm shank.				
	TT3420/35 As above but with 350mm shank for concealed cisterns.				
	TT3420-15/25 Technical drawing showing dimensions: 150mm (6") or 250mm (9 7/8") shank length, 1/2" BSP thread, 22mm (7/8") hole required, 50mm (2") mounting plate, 25mm (1") max. hole diameter.				
	TT3420/35 Lever Handle for Concealed Cistern Cavity Wall Fixing Technical drawing showing dimensions: 350mm (14") max. shank length, 1/2" BSP thread, 22mm (7/8") hole required, 50mm (2") mounting plate, 25mm (1") max. hole diameter, 95mm (3 3/4") total height.				

1010 (Regent shown. Also available as GA, GCD & RCD)
1/2" pillar sink mixer with swivel nozzle.

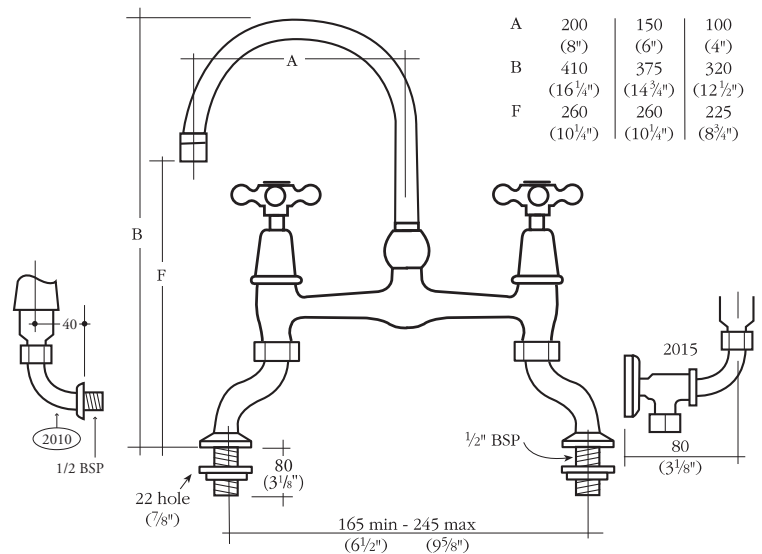

2010 (GA, R, GCD & RCD)
As above but wall mounted,
concealed supplies.

1010 & 2010 as above RFC style

2015 (GA, R, GCD & RCD)
As above but wall mounted,
exposed supplies.

2015 As above but RFC style. For swanneck
sizes please refer to dimension page 23.

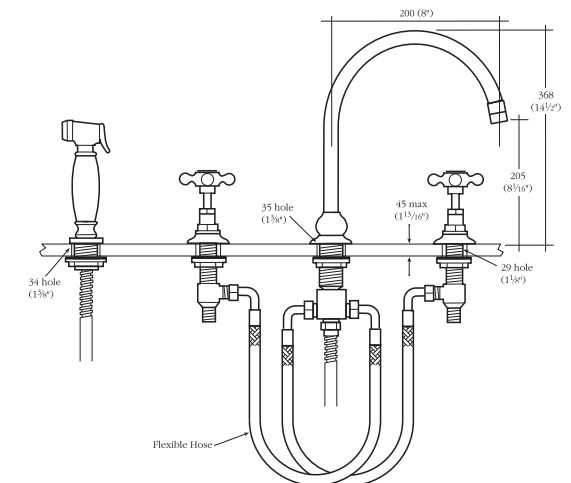

NB. Mixers have single flow nozzles fitted
with an aerator. Single check valves are
incorporated in the hot and cold inlets to
comply with water byelaw 25.IRN 101.

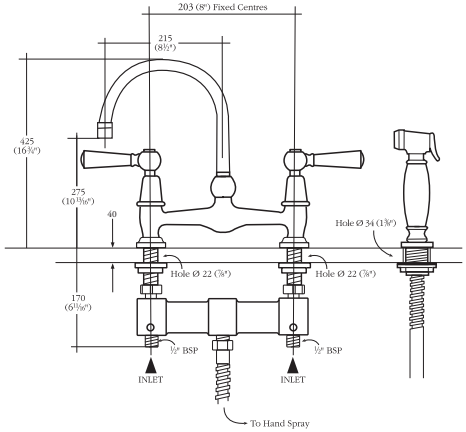

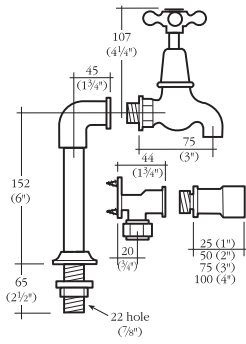

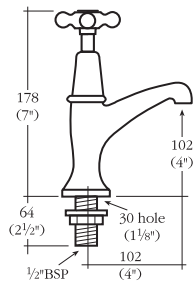

1040 (GA shown. Also available as R, GCD & RCD)

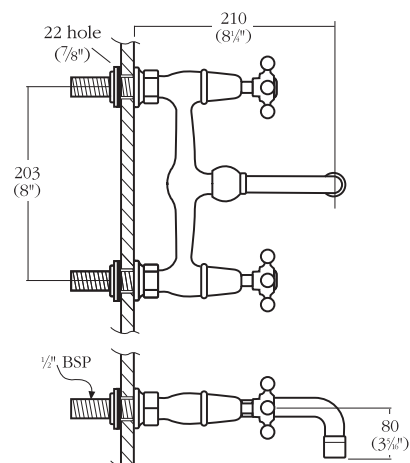

Sink mixer with flexible hose spray for
rinsing items before dishwashing. The
hand held spray is retractable and rests in
a flush fitting independent holder.

As above but RFC style.

Basin Mixers	Specification	Polished Brass	Chrome /Nickel	Inca/ Weathered Bronze	Satin Chrome/ Satin Nickel
	1030 (Only available RFC) Mixer and handspray for fitting into work surface at a fixed centres of 203mm. Handspray can be located in a suitable position close by.				
	Note: 1030 and 1040 Handspray operation interrupts the flow through the nozzle at the same temperature.				
					
	260 (RFC shown) 1/2" bib tap with quarter turn china lever handle.				
	260 (GA shown. Also available as R, GCD & RCD) 1/2" sink bib tap.				
	TT282 Backplate elbow.				
	TT280 6" standard.				
	TT284 – 1" extension. TT284 – 2" extension. TT284 – 3" extension. TT284 – 4" extension.				
	106 (GA shown. Also available as R, GCD & RCD) 1/2" pillar sink tap, with raised nozzle.				
	As above but RFC style.				

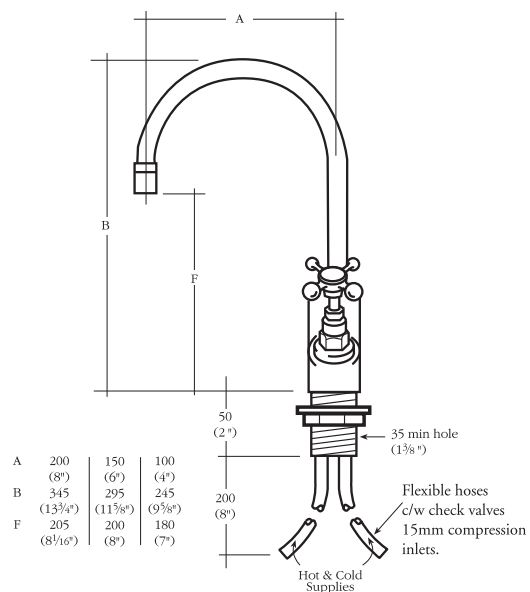

2020 (GA shown. Also available as R,
GCD & RCD)
Wall mounted sink mixer.

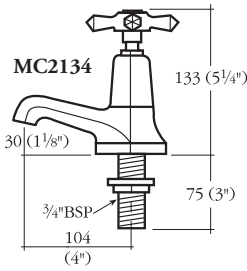

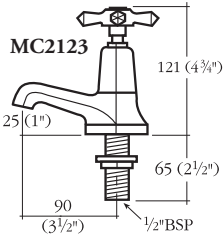

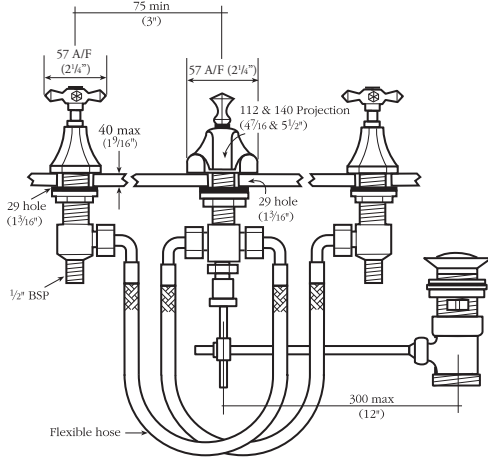

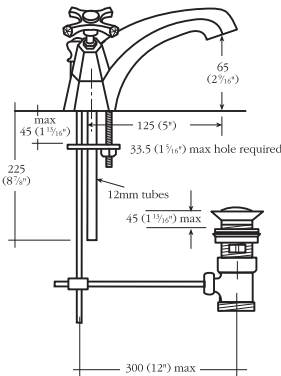

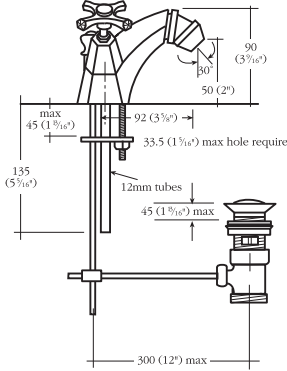

1070 (RFC shown)

Monobloc single hole sink mixer. Quarter
turn china lever handles and swivel nozzle.
For swanneck sizes please refer to
dimension page 23

As above but R, GA, GCD or RCD style.

Mastercraft 7" Wall Nozzle and B/Nut

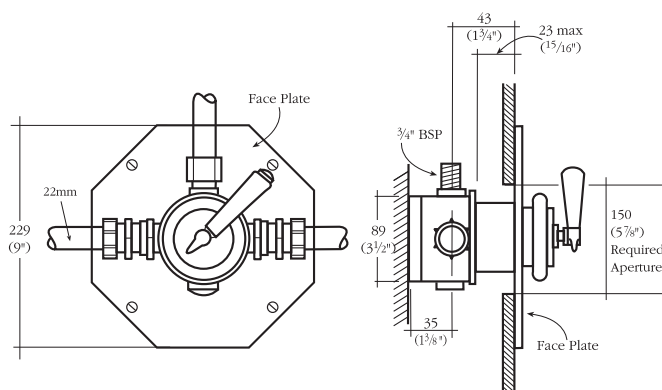

**MC3470WN****MC3470WS****MC3470 SET****MC3494 SET**Mastercraft 4 hole deck set comprising
hot & cold valves, diverter, nozzle and
pull-up handspray incorporating single
check valve to comply with Water Byelaws

MC3460

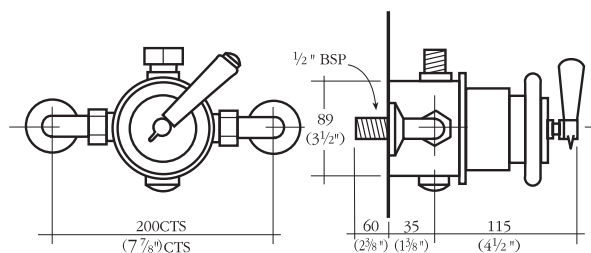

Mastercraft Concealed bath mixer, mounted on panel. This fitting is supplied assembled (as shown) and must not be removed from the plate

**MCPS53C**

Mastercraft recessed thermostatic shower mixer. Octagonal wall plate and lever.

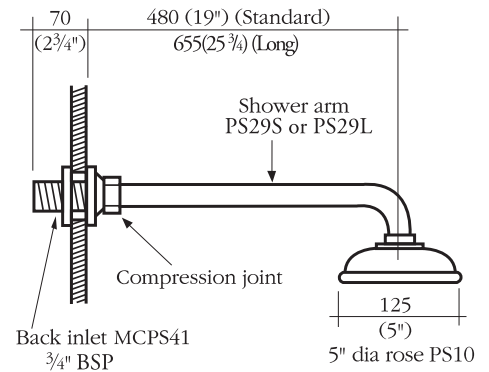

**MCPS53**

Mastercraft Exposed Thermostatic mixer valve only and inlet bends. Please refer to pages 11 & 12 for dimensions.

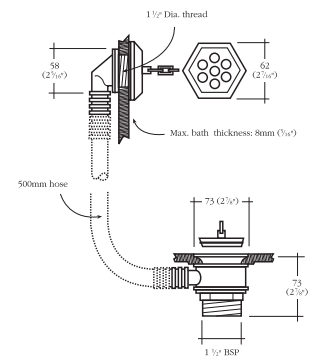

MCPS16

Comprises standard 17 1/2" shower arm, Mastercraft back inlet and 5" rose.
For any variations please order individual components as set out on page 18.

**MC3400**

Bath waste, plug, chain and overflow set.

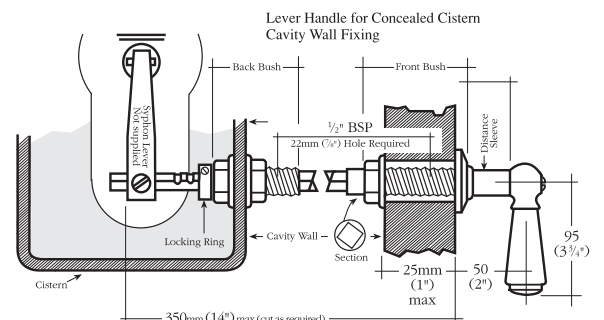

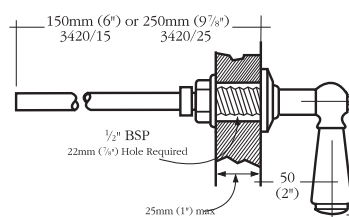

**MC3420/15**

Cistern lever handle with 150mm shank.
For dimensions see page 20.

MC3420/25 As above with a 250mm shank.

MC3420/35

As above but with 350mm shank for concealed cisterns.

Prices and specifications

Prices and specifications are subject to change without notice. All prices quoted are correct at the time of going to press.

Quality

All Barber Wilson bathroom products are produced to the highest quality standards and electroplated to British Standards: Chrome to BS1224. In addition, most fittings are tested by the WRc Evaluation & Testing Centre to ensure full compliance with current water bylaws. All products incorporating hand-held showers are fitted with backflow prevention devices to comply with these laws.

Guarantee

We will make good, free of charge, by repair or at our option by replacement, any goods with defects becoming evident within a period of 12 months of purchase and arising from defects which are attributable to us as manufacturers. We cannot be held responsible for any costs incurred in correcting installation related faults, nor problems with electroplated and polished finishes when our cleaning instructions are not adhered to.

Care of decorative finishes

GENERAL - to preserve the high quality finish, rinse after use with clean water using a soft cloth and dry with a soft chamois leather or a towel.

NEVER - use any form of abrasive. This type of cleaner/material is not necessary if the product is cleaned regularly in accordance with the above instructions, as they will definitely cause surface damage to all finishes. Most surfaces are relatively immune to attack from casual contact with the chemicals found in household cleaners (but avoid prolonged contact). Such cleaners should be rinsed off if necessary, avoid rubbing.

N.B. The use of proprietary chrome, nickel and gold cleaners/polishes should not be necessary, but in any event should only be used in strict accordance with the manufacturers instructions.

The only marks that can be difficult to remove with a damp cloth are water stains, which can appear in hard water areas. These marks are limescale, which must be dissolved not rubbed away. Watch out particularly around the base of taps and back of mixers for any build up of limescale. A word of caution: limescale is chemically the same as marble and the cleaner designed for its removal may also dissolve marble surfaces. Alkaline soap residues, if left to dry on, will attack all plated surfaces and again must be rinsed away (not rubbed).

Proprietary limescale removers may be used but only strictly in accordance with manufacturers instructions.

CHROME & NICKEL

The hardest of the decorative finishes, but we still recommend that you avoid scouring powders and abrasives. Chrome resists most chemicals but watch out for any form of hydrochloric acid such as proprietary liquid cleaner for dentures - it will dissolve the chrome in half an hour. Wipe products dry with a soft cloth after cleaning.

GOLD PLATED (INCA) FINISHES

Although the softest of the decorative finishes, it is perfectly durable with care and is resistant to chemical attack. Dissolve any water stains at the first sign using proprietary limescale removers (following the manufacturers instructions). Pay particular attention to the softness of the cloth you use to towel the gold products dry after cleaning.

SATIN (VELOS) FINISHES

These finishes are available in chrome, inca and nickel. Care as for bright finishes.

COLOURS

Harder than gold, but less hard than chrome. Resistant to chemicals, but beware of nail varnish remover which will soften most finishes of this nature. Generally care for colours like gold.

WEATHERED BRONZE

This finish is produced by first electroplating with copper. Items are then chemically aged. Copper highlights will develop in use, due to handling and cleaning as recommended. Cleaning must follow the recommendations for all other decorative finishes as above.

POLISHED BRASS FINISH

We also supply fittings in natural polished brass. This is not lacquered or electroplated and will tarnish quickly and naturally. To maintain the polished finish metal polish should be used.

OTHER BARBER WILSONS PRODUCTS

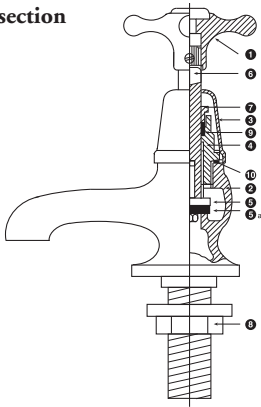

We hope you enjoyed browsing through this catalogue but please be aware that the items shown are standard production lines. We do, however, manufacture many items to bespoke designs tailored to meet a client's specific needs and preferences. If you don't see what you want then please do contact our sales office on 020 8888 3461 to discuss your requirements.
