Traditional taps in four styles

1890s (GA) with china lever handles (GFC)

Regent with china lever handles (RFC)

1890s (GA)

Regent (R)

Barber Wilsons taps are available in five styles:

- The **1890s (GA)** range have the original exposed top works.
- The **Regent (R)** range with 'easy-clean' shrouded head parts.
- The **GFC** prefix denotes the 1890s GA style but with lever handles.
- **RFC** denotes the R style but with lever handles.

Cross-headed styles are available with either traditional compression internal mechanisms with washers, or modern ¾ turn ceramic discs (suitable for high pressure applications only <1 bar).

If your preference is for ceramic discs please add the suffix CD to the part number when ordering. For example a GA 2134 with ceramic discs is a GCD 2134.
