Building on a strong Heritage

Armitage Shanks

Armitage Shanks is the most well renowned brand in UK for commercial bathroom, sanitary ware and washroom installations.

Commercial durability goes without saying and their products are designed with the performance and legislative demands of the broader construction market in mind.

Their large range of products means you can take a mix and match approach to create unique bathrooms and washrooms in any market sector. The company has built their reputation on the design, performance and durability of their products and through their expertise in application.

Armitage Shanks has an unparalleled selection of bathroom products, together with a depth of expertise that is unrivalled. They possess a wealth of knowledge which they are happy to share with you to achieve the best results – every time.

Since the early nineteenth century, Armitage Shanks has become part of the very fabric of life. Their outstanding, innovative products have been welcomed into businesses, schools, stadiums, charities and homes. They take great

pride in their products and continue to innovate to give you the confidence you need in your projects.

Because Armitage Shanks manufacture their own products, everything they make is to their own exacting standards. Every product is engineered to the very highest quality, giving you total reassurance, and your customers the very best products for their bathroom facilities.

Every Armitage Shanks product is beautiful to look at, designed to perform, engineered to exacting standards, and built to last.

Product safety & water saving schemes

Promoting and protecting Water Regulation requirements to ensure safe water delivery.

The Water Regulations Advisory Scheme (WRAS) is funded by all UK water suppliers. Its aim is to promote knowledge of the Water Regulations throughout the UK. WRAS require products to be vigorously tested to ensure they comply with Water Regulation requirements.

Among other tests WRAS ensure:

- Component materials and lubricants are tested to assess whether they are likely to contaminate water in a tap that dispenses drinking water.
- 200,000 off and on endurance test on all taps to ensure the quality of the valve and longevity of operation.
- Products are designed and installed to ensure there can be no contamination by back siphonage of stored or waste water into mains supply.

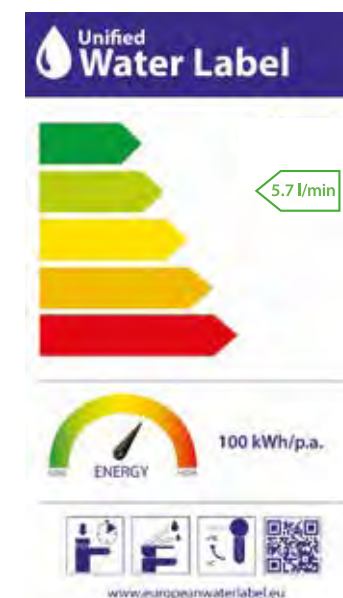

Certification proves thermostatic product has been tested and approved to TMV2 and TMV3 UK-based certification requirement.

TMV3-designated thermostatic mixing valves are verified as compliant with the performance specification D 08 for valves used in high-risk areas of health care premises. The Department of Health's HTM 04-01 specifies that these Type 3 valves must comply with the requirements of D 08. This robust performance-based specification ensures the safety of vulnerable people including children, older people, those with reduced mental capacity and users who are unable to react to prevent injury while washing or bathing.

TMV2-designated thermostatic mixing valves are compliant with EN 1111 (high pressure) and/or EN 1287:1999 (low pressure) and are used in domestic properties or other domestic type situations. The UK Building Regulations Part G requires mixing valves that are compliant with EN 1111 and/or 1287:1999 to reduce the risk of scalding.

Unified Water Label

The European Bathroom Forum have developed the Unified Water Label which uses a traffic light system to rate the water consumption of taps, showers, WCs, cisterns and baths. Armitage Shanks have signed up to the scheme and we have included the label in the following pages. Full details are on their website www.europeanwaterlabel.eu.

WHY CHOOSE IDEAL BATHROOMS?

Call us Idealists, but we think everything should be perfect – or at least as close as is humanly possible.

As the UK's No.1 we believe our service should be a shining example to the rest, where nothing is too much trouble and promises are always kept. Over the last 38 years we've learned what our customers want, the pressures you're all under and understand how tough it is out there – and we'll do everything in our power to help you succeed.

We've partnered with Armitage Shanks to increase our stock holding across the range to help support merchants and retailers with all your commercial product needs.

We are pledging to have those products highlighted as stocked items, stocked in volumes and available to you the retailer on next delivery - now That's Ideal.

STOCK

- Unrivalled Armitage Shanks stock holding across the UK
- £800K of stock available for you to access next day
- 600 Armitage Shanks product lines available for you

- Opening hours that meet your needs - weekdays 7:30am-5:30pm and Sat 9am-12pm
- Contracts Service available for larger Armitage Shanks orders
- A UK field based sales team focused on your needs

CUSTOMER SERVICE

DELIVERY

- Next Day Delivery available to 97% of the UK
- 98% of orders delivered on time in full
- Logistical excellence with fleet of 50 own vans

- Anytime, Anywhere, Any Device

Install a clinical
basin in just
seven minutes.

*Armitage
Shanks*

Nobody looks deeper into infection control than Armitage Shanks. Every detail of our MARKWIK 21+ mixer and CONTOUR 21+ basin has been designed to reduce the spread of infection. The basin can now be installed by one person in just seven minutes, delivering cost savings from day one.

Our new clinical mixer and basin solution offers:

- Reduced installation time for the basin (one person in seven minutes vs. two people in eighteen minutes)
- Demountable tap for autoclaving
- Full compliance with all relevant regulations and standards
- Tool-free thermal cleanse feature

Visit idealspec.co.uk or email BusinessSupport@idealstandard.com to find out more about our complete range of hospital solutions.

Doc M

Our Doc M packs are available in both right and left hand corner arrangements. They are supplied with layout drawings, detailing the necessary fixing positions necessary for Doc M compliance.

Commercial
products
a solution for
every sector

The UK's largest collection of
bathroom and washroom products
for Specifiers, Contractors and
Installers from Armitage Shanks.

Armitage
Shanks

For more information call 0870 122 8822
or visit www.idealspec.co.uk

Armitage
Shanks

Conserving natural resources,
saving money.

The UK population is growing and our climate is changing. To secure supplies for the future we need to save water.

Armitage Shanks is respected and unrivalled in the UK, with a strong presence in every sector of the construction market.

Delivering a water efficient solution has never been easier, thanks to our innovative products.

We have produced a collection of sanitaryware and fittings whose water saving credentials are matched only by their style and performance.

Our water saving products have been used in schools, hospitals and commercial buildings across the UK.

Guarantee

- LifetimeAll ceramic products
- 5 yearsOn troughs and sinks, taps and mixers, toilet seats, grab rails and cistern fittings.

Our confidence in the quality and reliability of Armitage Shanks products enables us to guarantee many of them for a lifetime.

Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Shower valves, mixers and taps, grab rails, troughs and sinks, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. Replacements can be found on our Fastpart website www.fastpart-spares.co.uk.
3. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty. Cistern diaphragms and seals are not included.

4. The guarantee is transferable "it applies to the product not the purchaser" provided guarantee registration details are passed on to the new owner.

This guarantee does not affect your statutory rights. Products must be installed, used and cared for in line with our fixing instructions and local bye-laws.

The guarantee does not cover general wear and tear.

Applies to UK and Republic of Ireland only.

See website for full guarantee details.
