Aspirante

Electric shower

Whether you're out to add a cool feature to your bathroom or find inspiration for a complete bathroom renovation, Aspirante puts cutting-edge design at the heart of your bathroom.

Six stunning finishes. From the polished style of Black Gloss and White Gloss to the natural beauty of Riviera Sand, Aspirante has a finish that will complement any bathroom. Pick your favourite and you can be sure you're giving your room a truly original look and feel.

Swivel-Fit™ – A 180° fully reversible swivel water inlet that accommodates water connections from either the left or right hand side of the unit to aid installation

Inspired Minimalist Design – subtle curved front with slender edges gives an illusion of floating in front of your tiles

Compact Slimline Design – gives a discreet and integrated appearance

Soft Press Illuminated Power Buttons

Push Button Start/Stop – to select your favourite shower setting every time

'Power On' Indicator

'Low Pressure' Indicator – operates when the water pressure is insufficient

Simple Temperature Control Knob – easy grip with pleasing soft motion

Phased Shut Down – when the shower is turned off, the water continues to run for a few seconds to flush out preheated water before stopping completely to help prevent limescale build up

Rub Clean Shower Head – 5 spray patterns

Aspirante

Electric shower

Aspirante may take shower design to the next level, but it does so without compromising quality. Everything, from initial installation to intuitive operation, has been considered and perfected.

No need to memorise obscure settings and indicators. Aspirante works as beautifully as it looks. One central control does everything you need – from switching on the shower to a perfectly delayed shutdown sequence. If only everything in life was so easy.

Swivel-Fit™ – A 180° fully reversible swivel water inlet that accommodates water connections from either the left or right hand side of the unit to aid installation

Pumped Electric Showers

Looking for a low pressure showering solution? Then look no further. Triton has a range of pumped electric showers which have a built-in pump which boosts water flow to overcome low or unreliable water pressures.

T90xr Pumped electric shower

With an integrated pump, this simple, stylish unit is designed for homes where water pressure is low, unreliable or non-existent. The unit features the latest technology to make it significantly quieter and slimmer than its predecessors. It is also an ideal replacement for older T90 variants, with compatible water and cable connections for quick and easy installations.

Push Button Start/Stop – to select your favourite shower setting every time

Integrated pump – to boost low pressure or negligible water pressures
