

Power Showers

Triton Power Showers mean that everyone can enjoy a forceful and invigorating shower experience whenever they want. Designed for plumbing systems with low pressure, these stylish showers combine a mixer and an integral pump in one. All Triton Power Showers have been designed not only to boost performance but to enhance and compliment any style of bathroom. Designed with clean, simple lines the AS2000XT and AS2000X are discrete in white or the Apsirante model is available in a statement making chrome finish. Whichever you choose, you can be sure their power is a force to be reckoned with.

Aspirante

Thermostatic power shower

Under a beautifully polished chrome fascia, this power shower has an integrated pump that provides a luxurious high flow rate of 14 litres per minute. Matched with an all chrome riser rail and handset, this model offers optimum style and performance for any bathroom.

Thermostatic Control – constantly regulated temperature gives the user more precise control and safer showering

Automatic Shutdown – should either the hot or cold water supplies fail

Adjustable Maximum Temperature Stop – reduces the risk of accidentally turning the temperature too high

Rub Clean Shower Head – 5 spray patterns

AS2000XT

Thermostatic power shower

This thermostatically controlled shower is suitable for low pressure systems and delivers a flow rate of up to 14 litres of beautifully warm water per minute. The mixer and pump system is housed in a pristine white fascia and paired with a white/chrome riser rail and handset, to blend with any style of bathroom.

Thermostatic Control – constantly regulated temperature gives the user more precise control and safer showering

Automatic Shutdown – should either the hot or cold water supplies fail

Adjustable Maximum Temperature Stop – reduces the risk of accidentally turning the temperature too high

Push Button Start/Stop – to select your favourite shower setting every time

Rub Clean Shower Head – 5 spray patterns

AS2000X

Manual power shower

Suited only for low pressure systems, this power shower also provides an outstanding flow rate of up to 14 litres per minute, but with manual temperature control.

Adjustable Maximum Temperature Stop – reduces the risk of accidentally turning the temperature too high

Push Button Start/Stop – to select your favourite shower setting every time

Rub Clean Shower Head – 5 spray patterns
