PERFORMANCE AND SAFETY YOU CAN TRUST

SEVEN DECADES OF EXPERIENCE AND INNOVATION

GROHE first began to engineer thermostats in the 1950s, and now has a well-earned reputation for manufacturing the most efficient products on the market.

Made in Germany - stands for precision engineering, attention to detail and unsurpassed quality. All of our research & development and design facilities are located in Germany, where we conduct comprehensive product testing before launch and during production. Consistently high production standards are the guiding principles. Our award-winning thermostats are available in a range of exposed and concealed options, across all budgets enabling effortless design coordination in the bathroom.

Our passion to achieve the ultimate balance of design, safety and performance reached a new level of perfection with GROHE F-Digital.
